HP t5570e Thin Client

Efficient design, simple setup

Smart design, simple management tools, and built-in energy efficiency to support and protect your Windows-based environment.

Support for Windows-based environments
The HP t5570e Thin Client delivers a great desktop experience with added features to make deployment and use simple and efficient. Feature rich Microsoft® Windows® Embedded Standard 7 operating system with support for RDP 7.1 and Microsoft RemoteFX combined with industry-leading software, deliver a rich, like-local PC user experience with a full-featured browser, the latest protocol support, write filter, firewall protection, and terminal emulation make the HP t5570e the ideal choice for client virtualization environments.

PC performance, energy efficiency built in
You'll experience traditional PC performance and multimedia playback while using less electricity. ENERGY STAR® qualified configurations help reduce power consumption. Additionally, enterprise-ready integrated Wi-Fi[1] models provide wireless connectivity anywhere your network reaches. Designed with the environment in mind, the t5570e is EPEAT™ registered, and BFR/PVC free[2] to support your own environmental initiatives. The HP t5570e combines smart design with built-in efficiency.

Productivity and flexibility expand with you
Connect to the latest in display technology with native dual-digital monitor support or use existing analog displays with the included DVI-I to VGA adapter. Standard configurations include 6 USB 2.0 ports (two are located in a secure USB compartment), a serial port, a parallel port, and a power cord retention slot. And, you can easily mount the HP t5570e behind a monitor or on a wall with HP QuickRelease[3] to fit your space-constrained environment. HP Thin Clients allow you to store critical data and applications on a secure, centralized server and control access permissions with local user and administrative log ins or add Smart Cards for greater end point security. You can also use industry-leading connection brokers with the HP t5570e for quick and easy access to a variety of virtual desktop solutions. You'll enjoy years of reliable use with the solid-state design and industry-standard architecture of HP Thin Clients.

Integrated solution, easy to manage
Get the broadest set of client virtualization technologies for connecting to remote applications and desktops, including the latest from Microsoft, Citrix, and VMware with ease using HP Easy Tools. This new wizard-based set of utilities guides administrators through initial setup and configuration, and provides simple and effective deployment options.
With the HP t5570e Thin Client on the desktop, HP's proven portfolio of desktop-to-datacenter hardware, software and services will help you create a thin computing solution that improves your IT and user experiences. HP Thin Clients are backed by HP global service and support through our network of 50,000 IT pros in over 100 countries. You can also select from a range of HP Care Pack Services to extend your protection beyond the standard warranties[4].
