HP EliteBook 2740p Tablet PC
A Twist of This. A Touch of That.

Tablet PC with a 30,7 cm (12.1") diagonal display, plus pen and touch capabilities

Windows®. Life without Walls™. HP recommends Windows 7.

Powerful performance when you need it

The HP EliteBook 2740p Tablet PC features full-performance, standard voltage Intel® Core™ i5 [1] processors in a lightweight tablet design. The outdoor view display delivers less reflection and higher contrast for better display appearance in bright, outdoor or indoor light, helping you work whenever and wherever you need.

Pen and multi-touch display

Use the pen or the pen and finger touch to easily navigate applications, turn pages and complete tasks. This tablet PC converts your digitally handwritten notes to text or saves them as your script. Using the multitouch-screen gestures, zoom in or rotate documents or images, quickly making on-screen changes and completing tasks.

Tough design

Don't let the sleek design fool you. The aluminum surface and full magnesium enclosure protects the HP EliteBook 2740p from the rigors of daily business use, while HP DuraKeys protects the print on the keys. This tablet PC meets tough military standards (MIL-STD 810G) [2] for vibration, dust, humidity, altitude, and high temperatures. HP 3D DriveGuard protects your PC's hard drive against impact, bumps, or drops.

HP Professional Innovations help you focus on your business

Built to simplify. Integrated HP Mobile Broadband allows convenient access to the internet, corporate intranet, and e-mail in more places than ever [3]. Integrated HP Mobile Broadband also includes a Global Positioning System (GPS) [4] receiver that supports NMEA-compatible [5], [6] applications, which are often used for asset tracking, mapping, or navigation.

HP QuickLook 3 provides read and write capability of email, calendar, task and contact information in seconds at the touch of a button, without having to boot up. [7] And HP QuickWeb [8] grants access to the web in seconds… even if your tablet PC is turned off.

Choose either the 6-cell (44 Whr) Li-Ion Prismatic primary battery or the HP Long Life Battery (6-cell, 39 Whr) with up to a three year life span [9].

THE COMPUTER IS PERSONAL AGAIN.

Warranty	Protected by HP Services, limited 3 year standard parts and labour (3/3/0) warranty. Terms and conditions vary by country. Certain restrictions and exclusions apply.

[1] 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information. Quad Core is designed to improve performance of multithreaded software products and hardware-aware multitasking operating systems and may require appropriate operating system software for full benefit. Not all customers or software applications will necessarily benefit from use of this technology. Intel's numbering is not a measurement of higher performance

[2] Testing was not intended to demonstrate fitness for DOD contracts requirements or for military use. Test results are not a guarantee of future performance under these test conditions

[3] Gobi wireless technology requires separately purchased wireless data service contracts. Check with local service provider for coverage and availability in your area. Connection speeds will vary due to location, environment, network conditions, and other factors

[4] GPS access requires an unobstructed path to multiple satellites. Performance may be affected if/when used inside of buildings, bridges or heavily congested metropolitan areas. Requires separately purchased GPS navigation software available from multiple GPS applications

[5] Sold separately or purchased as an optional feature

[6] In independent testing conducted by Trace Laboratories, HP DuraKeys showed no wear after 250,000 cycles. Competitor PCs showed significant wear after only 5,000 cycles

[7] HP QuickLook 3 is accessible when the tablet PC is off in Windows XP, Windows Vista or Windows 7-based systems not supported from hibernation. Timing may vary depending on the system configuration. To enable the feature following the removal of the battery, reboot the PC prior to subsequent use

[8] HP QuickWeb is accessible when the tablet PC is off in Windows XP, Windows Vista or Windows 7-based systems not supported from hibernation. Internet access required. Timing may vary depending on the system configuration. To enable the feature following the removal of the battery, reboot the tablet PC prior to subsequent use

[9] 3 year limited warranty or 1000 cycles. Battery cycles is the total number of full charge/discharge cycles a battery yields before it can no longer hold a useful amount of charge. Accessories and Services

HP 2740 Ultra-slim Expansion Base

The perfect companion for your HP EliteBook 2740p notebook, this innovative solution is so adaptable that you can use it as docking station in the office and take it with you on the go.

Product number: WA995AA

HP Elite 12.1 Slip Case

HP Elite Slip Case provides sleek and stylish protection for your notebook while you are running between meetings. Constructed of durable manufactured leather.

Product number: AY520AA

HP 65W Smart Travel AC Adapter

AC power adapters from HP power your notebook and charge the internal battery simultaneously. These adapters provide you with the ability to power your notebook when away from the office or on the road. The HP 65W Slim Travel Adapter is perfect for international travelers or "road warriors" who are always on the go. The adapter is 40% thinner than the standard 65W adapter and includes a convenient USB port for charging other accessories while you work. Four international adapter plugs help make sure your Slim Travel Adapter works wherever you do. A stylish protective carrying case keeps everything together.

Product number: AU155AA

HP 2700 Series 6-cell Li-Ion Ultra-slim Battery

Always on the move? This extended battery option provides all the power you need to keep your notebook running for up to 10 hours.

Product number: RX932AA

HP External USB CD/DVD R/RW Drive

HP USB CD/DVD R/RW drive is designed to read DVD-ROM discs as well as CD-ROM, CD-R, DVD-RAM discs, allowing users to store, share or take with them information they have captured.

Product number: FS943AA

3 years Next Business Day Onsite, HW Support

HP provides next business day, onsite replacement of your failed hardware unit, if the problem can't be resolved remotely. Offers easy-to-purchase, easy-to-use onsite hardware repair service for your HP product.

Product number: U4415E
