# HP Remote Graphics Software version 7

Workstation workflows from anywhere in the world.

Access, share, and broadcast your Windows® and Linux® workstation and virtual workstation apps in amazing, high-speed clarity from any remote PC, Mac®<sup>1</sup>, MacBook®<sup>1</sup>, Windows® tablet or thin client, with HP Remote Graphics Software (RGS), built from the ground up with HP's workstation expertise.<sup>2</sup>

#### **Workstation-class performance everywhere you work**

Work like you're local with transfer speeds up to 60 fps for your most demanding apps. HP RGS looks fantastic even at 4K. Get a premium experience regardless of connectivity strength with integrated HP Velocity and Advanced Video Compression.

#### **Let HP upgrade your Mac®**

Experience optimal cross-platform flexibility, compatibility, and productivity with the new Mac® receiver.<sup>1</sup> Now you can connect to your powerful HP Z Workstation or virtual workstation from your Mac®<sup>1</sup> or MacBook®<sup>1</sup> without interrupting your creativity or your workflows.

#### **Bring in the team**

Collaborate across the room, across town or around the world. Stream your local workstation screen across the cloud to your team's individual devices<sup>3</sup> for live, interactive edits and reviews, or pull multiple remote feeds to a single PC.<sup>1</sup>

### **Securely access your workstation apps**

Get secure, real-time, remote access to your workstation apps with 256-bit encryption that only sends an image and leaves your intellectual property in the data center.<sup>2</sup> Add more security<sup>3</sup> with login credentials, USB blocking, and local smart cards.<sup>4</sup>

### **Just one touch**

Cut the cords, ditch the keyboard and mouse, and work from anywhere with remote access to your workstation-class apps on your Windows® tablet. Advanced touch recognition features even “teach” Windows 7\* applications to recognize Windows 10\*\* gestures.

### **Getting HP RGS is easier than ever**

All HP Z Workstations include an HP RGS sender license, or you can purchase them for your blades, virtual workstations or multi-vendor environments; the receiver is a free download for any PC or Mac®.<sup>1</sup> No extra hardware or infrastructure cost is required.

### **Global reassurance**

Rest easy that HP is here to help. Get 90 days of phone-in setup support when you download or purchase HP RGS. Additional phone-in technical support is available when you purchase an optional HP Care service.<sup>5</sup>

\* This system may require upgraded and/or separately purchased hardware to take full advantage of Windows 7 functionality. Not all features are available in all editions of Windows 7. See [microsoft.com/windows/windows-7/](http://microsoft.com/windows/windows-7/) for details.

\*\* Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows functionality. See [microsoft.com](http://microsoft.com) for details.

1. Coming soon.
2. HP RGS requires a Windows, Linux or OS X 10.10 and newer operating system and network access.
3. Not available through Mac® receiver.
4. Smart cards are sold separately.
5. HP Care Pack Services are sold separately. Service levels and response times for HP Care Pack Services may vary depending on your geographic location. Service starts from date of hardware purchase. Restrictions and limitations apply. See [www.hp.com/go/cpc](http://www.hp.com/go/cpc) for details. HP services are governed by the applicable HP terms and conditions of service provided or indicated to Customer at the time of purchase. Customer may have additional statutory rights according to applicable local laws, and such rights are not in any way affected by the HP terms and conditions of service or the HP Limited Warranty provided with your HP Product.
