

HP Translucent PVC Display Film is a translucent, satin-coated PVC film that is ideal for display graphics, with or without backlight. Perfect for indoor or outdoor applications – it provides outstanding colour brilliance and superb image definition.

Professional and Commercial Print Service Providers and Sign Shops looking for a rigid PVC film that displays high colour brilliance with or without backlight.

Crack, tear and water-resistant construction ensure optimum indoor and outdoor performance¹.

Outstanding colour brilliance and high image definition. HP Translucent PVC Display Film features a polymeric coating delivering enhanced brightness, excellent clarity and high contrast for brighter whites and darker blacks.

With or without backlight, this versatile media is perfect for a wide range of indoor or outdoor displays.

¹Image permanence and application durability using HP 780 or HP 790 low-solvent inks, based on typical exposure in vertical display conditions and varies as environmental conditions change.

HP Translucent PVC Display Film 295 g/m²

Compatibility
