

HP ZR30w 76,2 cm (30") S-IPS LCD Monitor

Now with DisplayPort and billion color support

Introducing the newest 76,2 cm (30") diagonal Performance Series monitor from HP. With a 30-bit panel and DisplayPort connectivity, the ZR30w delivers 4.1 million pixels and 1.07 billion colors.

Bigger just got better

At first glance, the HP ZR30w may look like the previous 76,2 cm (30") diagonal Performance Series monitor, but its new and improved features make this model a Generation 'wow' monitor. For starters, it has a new aluminum-clad chassis that uses a minimum of 25% post-consumer recycled resin for more responsible resource utilization. Next, it houses a lower power panel, making it more efficient than previous 76,2 cm (30") models. And finally, it comes with an 85% efficient power supply. Once you take a closer look at the HP ZR30w, you'll find that HP has gone to extreme measures to make their biggest monitor better.

Enjoy visions of grandeur

The HP ZR30w enables maximum comfort and best visual positioning with a 6-way adjustable stand that provides tilt, swivel, and height adaptability in the column, helping you improve productivity throughout the day. With the ZR30w, integrated cable management has also been simplified with the new, easy to use, snap-on cable cover.

See the billion colors you've been missing

The HP ZR30w helps achieve maximum accuracy with outstanding visual performance technologies. This display's S-IPS panel provides brilliant visual performance and extremely wide viewing angles. And with a whopping 30-bits per pixel color resolution, 1.07 billion displayable colors, a resolution of 2560 x 1600 in a 16:10 aspect ratio, and a 3000:1 dynamic contrast ratio, you'll clearly see what you've been missing in the past. Of course, the ZR30w also includes DisplayPort and DVI-D inputs, an integrated 4-port USB hub and an HP Quick Release for simple out of the box set up.

Better together

Like the HP ZR30w, HP Z Workstations (sold separately) also feature complementary industrial design and high-efficiency power supplies. They are also tested with all HP Performance displays, so when you put these tools together you'll experience a workstation solution that has been designed with both you and the environment in mind.

HP ZR30w 76,2 cm (30") S-IPS LCD Monitor

SPECIFICATIONS

Panel type	Wide-aspect active matrix TFT
Viewable image area	76,2 cm (30") widescreen
Viewing angle	178° horizontal; 178° vertical
Brightness	370 cd/m ²
Contrast ratio	1000:1 static; 3000:1 dynamic
Response rate	7 ms
Native resolution	2560 x 1600
Input signal	1 DVI-D; 1 DisplayPort
Input power	Input power: 100 to 240 VAC
Power consumption	185 W maximum; 130 W typical, standby <2 W
Dimensions	with stand: 69.4 x 27.6 x 48.9 cm without stand: 69.4 x 8.7 x 45.4 cm
Weight	13 kg with stand
Ergonomic features	Tilt: -5° to + 35°; Swivel: -45° to + 45°
Environmental	Operating temperature: 5 to 35° C; Operating humidity: 10 to 80 %

HP ZR30w 76,2 cm (30") S-IPS LCD Monitor

Accessories and Services

HP DreamColor Advanced Profiling Solution

The HP DreamColor Advanced Profiling Solution (APS) is an optional LCD display device designed to work with DreamColor color-managed devices, including the HP DreamColor LP2480zx display and select models of the HP mobile workstation series. It allows users to quickly and accurately calibrate the display's front-of-screen settings to prevent any drift of critical color or whitepoint settings. The device is especially of interest to professional users who require precision color accuracy in their work output.

Product number: KZ300AA

HP LCD Hood Kit

The HP LCD-Hood Kit is a monitor option designed to block the glare from overhead lighting. The hood helps to improve the color and contrast performance of the monitor in a room with bright overhead lights.
