HP Scitex FB500/FB700 White Ink Upgrade Kit

Easily impress clients with prints enriched with white ink. Just combine the HP Scitex White Ink Upgrade Kit with your printer purchase, or add it at a later date.

- Impress clients with white-ink enriched prints
Enrich prints with white ink and “wow” your clients. Use Original HP white Scitex ink and add underfoot, overfoot, and spot color placement to produce richly saturated color on clear or colored materials.
- Adding white ink is easier than ever
The HP Scitex White Ink Upgrade Kit makes it easier than ever to add or remove white ink whenever it’s required. A unique HP homogenizer maintains the stability of the white ink, preventing pigment sedimentation.

HP Scitex FB500 Extension Tables

- Say yes to most requests—even for long materials
Impress your clients with high-impact specialty prints produced on extra long, rigid materials. HP Scitex Extension Tables provide the necessary support to print on extra-long sheets.
- Sturdy design supports extra-long materials
Rely on HP to deliver dependable extension tables that help you get the job done. Rollers on the table surface align with the printer and facilitate the smooth transition of media from the table to the printer and out again.
- Save space—use fold-up tables only when needed
HP Scitex Extension Tables are ideal for work environments where space is a concern. Pull out the tables when you need to print on longer, heavier materials. They're foldable and can be stacked upright—and out of the way—when not in use.
