

HP 2310ei 58,4 cm (23") Ultra-Slim WLED

Backlit

You'll look good in green!

HP's WLED backlit panel monitor blends contemporary design and environmental features in a monitor that is built to handle your business demands.

Thin is in

The HP 2310ei, 58,4 cm (23") diagonal WLED backlit LCD monitor is one of HP's largest and thinnest contemporary business displays that also has environmental features and performance specifications that can benefit your business and the environment.

'Go Green' with White LEDs

The 2310ei houses a low power WLED (white light emitting diode) backlit panel, which has several benefits. First, WLEDs do not contain mercury, which eliminates the concern of the use of this substance. Next, WLEDs typically consume less power than CCFLs, which can help reduce your energy footprint. Finally, WLEDs are also solid state components, making them durable and more resistant to damage caused by external shock than CCFLs.

HP innovations help make an impact

The HP 2310ei has also earned the following certifications:

- An ENERGY STAR® 5.0 qualification means your display uses from 25–60% less electricity than standard models
- EPEAT® Gold ratings ensures your investment has met the highest level of environmental performance criteria
- A TCO Displays 5.0 certification confirms the display fulfills some of the world's strictest demands for environmental impact, picture quality and user safety

Modern technology that performs

This monitor delivers technical specifications that include:

- A 58,4 cm (23") diagonal viewable image area makes it possible for multiple applications to be open at once
- A extremely thin monitor head frees up valuable desk space
- A 16:9 aspect ratio and full HD resolution ¹ (1920 x 1080) brings images to life
- An impressive 8,000,000:1 dynamic contrast ratio ² creates deeper blacks, brighter whites and subtle colors
- BrightView panel technology minimizes glare to improve readability without reducing contrast
- Wide 170° horizontal viewing angles makes it easier to share your screen with others
- Advanced plug and play connectivity inputs include DVI and DisplayPort for digital video support

Support you can count on

The HP 2310ei comes with a one year limited warranty. Additional coverage is available from a wide range of optional enhanced service plans (Plans vary by region).
