

## HP MultiSeat ms6000 Desktop

A new paradigm in computing efficiency

This innovative multi-seat computing solution from trusted industry leaders HP and Microsoft® lets you double your computing seats without increasing your IT budget, while delivering a familiar Windows® operating system experience to multiple users from a single, dedicated PC for maximum cost savings, management and power efficiency.

---

### Maximize your cost savings

Extend your budget with multi-seat computing by leveraging the excess capacity of one PC to deliver a dependable PC experience to up to 10 users <sup>1</sup>. This reduces the total number of physical PCs in your environment, which also reduces the time and complexity of PC deployment, management, maintenance and upgrades.

### Simplified IT setup, personal PC experiences

IT will appreciate the quick, simple deployment of the HP MultiSeat Computing Solution. Add seats with simple plug-and-play USB connectivity, no additional PCI or video cards to install or networking expertise required. Users will get a familiar Windows® operating system experience with simple collaboration, including individual, customizable desktops. Users and IT alike will enjoy the higher uptime and greater productivity of this cutting-edge PC sharing solution.

### Microsoft® licensed and supported

Powered by a single, reliable HP Compaq MultiSeat ms6000 Desktop with new Microsoft Windows® MultiPoint™ Server 2010, HP MultiSeat Solution provides a fully licensed and supported Windows® operating system experience for up to 10 users <sup>1</sup> for complete compatibility with the latest OS, security patches and updates. HP provides end-to-end solution support, from warranty to tech support on the complete offering.

### Reduce your impact on the environment

Multi-seat computing can also help your organization meet its environmental goals. Reduce energy consumption by up to 80 percent over individual desktops with power consumption of 2.5 watts per user. The solid-state HP t100 Thin Client also reduces environmental heat and noise by up to 90 percent over traditional PC environments.

With the HP MultiSeat Computing Solution, feel great about your investment in IT, and the environment.

---

THE  
COMPUTER  
IS PERSONAL  
AGAIN.
