

HP Access Control Printing Solutions

Reinforce control and security, reduce costs

Profit and security can be compromised when print environments are left uncontrolled. Protecting information, securing devices and improving fleet management can put pressure on your entire organisation, especially if you're trying to increase productivity and lower costs at the same time.

Enhance security, help reduce costs and improve productivity in the print environment. With the suite of HP Access Control (AC) Printing Solutions, you can receive print authentication, authorisation, accounting, auditing and secure pull-printing capabilities that are scalable across your organisation. Designed to be modular and integrate easily with HP devices, HP AC enables you to choose the specific solutions that are right for you.

What if you could ...

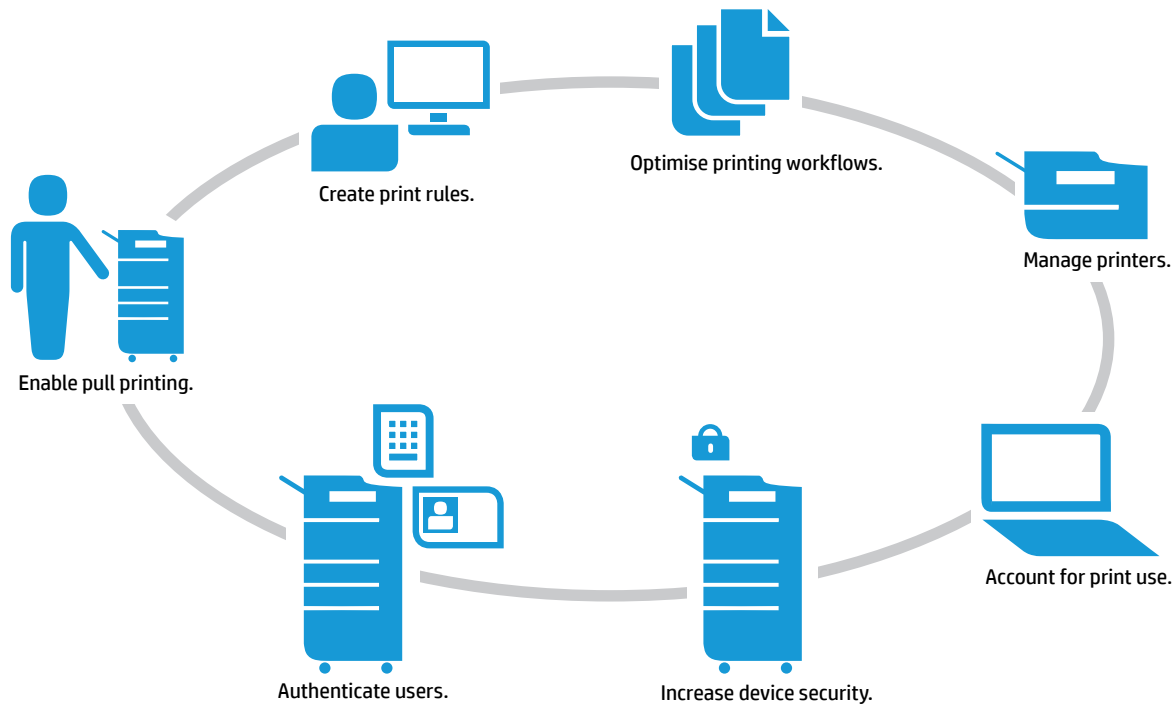

- Enhance the security of networked printers by easily authenticating devices and users?
 - Offer mobile and remote workers, as well as print-reliant departments, the access and features they need?
 - Increase the rate of return on infrastructure investments by tracking activity by device, user and department?
 - Cut print costs across the organisation with rules-based printing and intelligent routing?
 - Change user behaviour without sacrificing convenience or security?
-

Solution at a glance

Transform imaging and printing practices for a more efficient and secure environment. HP Access Control Printing Solutions makes it easy to monitor and control imaging and printing costs, collect and track data by device and user, and modify user behaviour to help lower expenses and eliminate unclaimed documents. Manage access to networked HP LaserJet printers, multifunction printers (MFPs) and scanners to protect sensitive information. Help ensure streamlined imaging and printing practices by confirming the right devices are being used for the right jobs and contribute to environmental goals by reducing paper usage.

When you deploy HP AC Printing Solutions through an HP Managed Print Services MPS agreement, the solutions support HP single-function printers, MFPs and networked scanners, as well as selected imaging and printing devices from Canon.

HP Access Control Printing Solutions

Control and secure your managed print environment

Secure Pull Printing

Enable users to print to the network and then retrieve jobs to any solution-enabled device. Pull printing virtually eliminates unclaimed documents and increases the efficiency of mobile workers by allowing them to access documents from almost anywhere.

Secure Authentication

Protect your networked imaging and printing devices with robust authentication features that integrate with existing network credentials, including LDAP and Active Directory®. Increase document security by requiring simple user authentication prior to printing, copying, emailing or scanning at the device.

HP Proximity Card Readers

Provide users with a single authentication solution that supports a wide variety of the proximity card protocols.

Monitor and allocate printing resources

Job Accounting

Track the use of devices and supplies across your organisation. Use that data to easily create detailed reports that allow you to allocate print costs, motivate employees to print smarter and provide IT with the necessary information to improve fleet-wide forecasts.

Lower costs with effective management

Intelligent Print Management

Manage output and create custom printing rules that help you meet cost-cutting goals, internal compliance needs and environmental initiatives. Save paper, restrict colour printing to only those who need it and balance device use with automatic job routing.

Intelligent Rights Management

Create custom device user controls that can enforce your security goals, lower costs and assign specific usage rights to individual workers or groups for faxing, copying and scanning.

HP Access Control bundle comparison

	HP AC Express	HP AC Professional	Modular solutions
Secure Authentication			
PIN, PIC, and Mobile Release	Yes	Yes	Yes
Proximity Reader (CZ208A)	Yes	Yes	Yes
Secure Pull Printing			
Secure Pull Print Express	Yes	Yes	No
Secure Pull Print	No	No	Yes
Job Tracking and Reporting			
Job Tracking	Up to 30 users per device	Up to 30 users per device	Yes
Job Accounting	Yes (no quota/allocation)	Yes	Yes
Full reporting (300+ reports)	Yes	Yes	Yes
Policy			
Intelligent Print Management	No	Yes	Yes
Intelligent Rights Management	No	Yes	Yes
Other			
Encryption	No	Yes	Yes
Roaming	No	No	Yes
Add-on modules	None available	Job Accounting User Pack (CE948AAE)	All modules are sold independently

Meet specific needs with a modular approach

HP Access Control Express

A lower cost and simplified solution, HP AC Express delivers secure print authentication, secure pull printing and job accounting features.

HP Access Control Professional

The full suite of HP AC solutions, HP AC Professional delivers print authentication, auditing, authorisation, accounting and secure pull printing express.

HP Access Control Modules

The gateway to customise your environment with only the features you need, HP AC Modules delivers any of the individual solutions within the suite.

HP at work

When a large pharmaceutical company started to notice signs of an unmanaged print environment – confidential documents left exposed at the printer and employees resisting the steps to complicated authorisation – it turned to HP. HP Access Control Printing Solutions successfully reined in both the risk and the resistance. Now only authorised employees can retrieve jobs at the device and encrypted data provides an extra layer of protection. Plus, employees get what they need without the hassle because the simple badge authorisation is easy and stress-free.

Why buy HP?

HP has the expertise to identify and integrate innovative solutions – for companies of any size – to help meet their complex business needs. As a global technology leader, HP offers financial stability and scale to improve IT value, enabling customers in major industries to become more cost-effective, efficient, secure and sustainable.

Get started

Contact your local HP representative to:

- Set up a workshop with HP to assess your specific business needs
- Establish a plan to implement the best solution for today and into the future
- Identify an environmental approach that can help your company save money

HP three-part approach

HP works with you to assess, deploy and manage an imaging and printing environment tailored to meet your business needs, while helping you reduce costs, conserve resources and simplify document-intensive processes.

Optimise infrastructure

HP can help you achieve a balance between your total cost of printing and your needs for user convenience and productivity.

Manage environment

Working together, HP can help you maintain your optimised infrastructure while improving business efficiency and tightening security.

Improve workflow

By streamlining your document-intensive processes, HP can help you deliver a more efficient environment for capturing, managing and sharing information.
