

Solution brief

# Comply with mandates, automate workflow

HP Redaction Solution for Government

## What if you could...

- Increase the short- and long-term security and privacy of the documents in your care?
- Automate the redaction process of sensitive documents?
- Strengthen control over capture and redaction processes, while reducing errors and lost documents?
- Distribute the costs of document capture, management, and workflow more evenly throughout the agency?

## Increase control of privacy and compliance in your document workflows

Tightening budgets and cuts in funding mean doing more with less. Automating processes drives efficiencies so that the time, productivity and financial costs of the outdated, manual pen-and-paper method will no longer hinder complying with essential mandates and security requirements.

Enterprise document management, imaging, and workflow solutions expand the functionality of HP multifunction printers (MFPs) and scanners. Now you can scan and index documents from an HP MFP directly to your business workflow processes—including redaction queues.

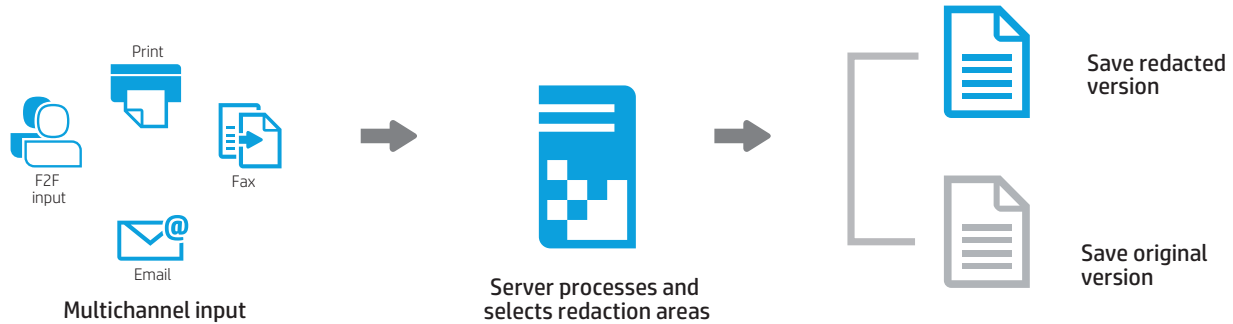

## HP solution at a glance

HP Redaction Solution delivers document capture, imaging, and workflow solutions that enable customers to initiate and streamline secure workflow processes directly from an HP MFP or scanner. Users can capture, index, and route documents using intuitive workflow options accessed directly from the device's touch screen. This redaction solution addresses the challenge of complying with privacy mandates by replacing manual, time-consuming processes with lower-cost and higher-productivity automation. With the HP Redaction Solution, you can:

- Remove sensitive or private information from documents.
- Reduce costs, time, and errors by automating redaction processes.
- Strengthen security and improve compliance with legal requirements.
- Capture documents on HP MFPs and scanners at the source without additional hardware.
- Improve constituent satisfaction.
- Integrate with enterprise resource planning (ERP) and business applications.

## HP Redaction Solution

Automatic redaction queues increase speed and accuracy

### Why HP?

HP is a trusted partner to hundreds of government agencies in countries all around the world. This experience gives us unique insight into clients' concerns around security, cost reduction and reliability. Partner with HP to streamline the flow of documents and information that drive your agency. You can count on:

#### Complete solutions

With end-to-end solutions and services, HP works with you to identify and address your specific needs today and into the future.

#### Unsurpassed expertise

HP domain expertise and experience enables us to deliver technology-led solutions that address specific industry challenges.

#### Global reach

With IT professionals in 170 countries, HP has the resources to address your organization's needs here, and around the world.

#### Industry leadership

HP is recognized as a global leader in imaging, printing, and computing, an industry leader in print security, network and infrastructure management, and an organization with a strong commitment to environmental sustainability.

### How do you get started?

Contact your local HP representative to:

- Set up a workshop to assess your specific needs.
- Establish a plan to implement the best solution for today and into the future.
- Identify an approach that can help you save time, resources, and money.
