

HP Mini 5103 Mini Executive

Maximize your mobility with the HP Mini 5103, featuring touch capabilities and tools for office productivity.

Windows®. Life without Walls™. HP recommends Windows 7.

Durability meets style

The outstanding industrial design of the HP Mini 5103 keeps your mini protected from the rigors of mobile use. A durable all-metal case, HP 3D driveguard protection for the hard drive and a 95% full-size, spill-resistant QWERTY keyboard contribute to its durability. Starting at 1.19 kg, the HP Mini 5103 touts a 25,7 cm (10.1") diagonal LED-backlit display and an optional handle ¹ for easy carrying.

Touch it or type it

Get your work done faster and more intuitively. The optional capacitive multi-touch display ¹ lets you navigate on the screen with the touch of your fingers.

Productivity matters

HP DayStarter displays your calendar and battery charge while your system boots Windows®, so you can jumpstart your day ². Similar to office productivity suites you may have used before, Corel® Office helps you prepare, edit and present great-looking letters, reports, charts, quotations, memos and mailings. Corel Office software is pre-installed on your HP Mini.

Easy to use

Logging in is a snap with Face Recognition for HP Protect Tools ³. Simply face your notebook's camera, and the feature logs you into Windows and websites.

Avoid maintaining multiple documents, media files, email contacts, and emails between your primary PC and your Mini. HP QuickSync ⁴ lets you synchronize your data in a snap!

Prepared for powerful performance

Choose the low-power, Intel® Atom™ processor that consumes less power, improves battery life and enhances system performance compared to its predecessors. Various Windows 7 ⁵ and SuSE Linux operating systems are also available. Two battery options let you choose between the lighter weight or longer battery life. With HP's innovative Fast Charge, you can recharge your battery up to 90% in 90 minutes ⁶.

Stay connected

Integrated HP Mobile Broadband powered by Gobi ⁷ allows you to access the internet, company intranet, and e-mail in more places than ever before.

THE
COMPUTER
IS PERSONAL
AGAIN.

SPECIFICATIONS

Operating system	Preinstalled	Supported
