

Compaq 100eu All-in-One PC

Stylish computing in a
space-saving package

Empower your employees without going over budget. The affordable Compaq 100eu All-in-One PC puts the power of computing into one small, stylish package. With Windows XP Home, a 160GB 7200 SATA-3.0Gb/s hard drive, 1GB PC2-6400 DDR2-800 SODIMM of system memory and an Intel® Atom D410 Processor, you can use the computer right out of the box and get right down to business.

Stylish simplicity in a neat little package

The sleek, streamlined Compaq 100eu All-in-One has a built-in 50.8 cm (20 inch) display and speakers and conceals cables and messy peripherals. With its small stature, the 100eu delivers balanced performance. Quickly connect and transfer information using the 6-in-1 digital media reader and six Hi-Speed 2.0 USB ports. With the slim-tray DVD-RW drive, back up and retrieve data or review multimedia collateral. Pre-installed software, including a Microsoft Office Suite trial and McAfee Antivirus, provide essential functionalities to increase productivity and manage your time, making the Compaq 100eu All-in-One the perfect fit for your business.

Save money and the environment

Designed for efficiency, the 100eu All-in-One gives you a PC and monitor in one box for one affordable price. Unlike traditional desktop and display computing systems that require two power supplies, the 100eu has a single power source. The 100eu lowers utility costs by using half the electricity - 75% less in sleep mode.

Reliability without the worry

Productivity won't be hindered with Compaq 100eu All-in-One's consistent performance. All Compaq PCs are backed by HP, the world's #1 PC brand in quality and service. Protected by our standard, one-year warranty, you can expect award-winning support and service for your IT investment. We simplify technology so you can focus on business!

Compaq 100eu All-in-One PC

This system may require upgraded and/or separately purchased hardware and/or a DVD drive to install the Windows 7 software and take full advantage of Windows 7 functionality. See <http://www.microsoft.com/windows/windows-7/> for details. Windows 7 Professional disk may be included for future upgrade if desired. To qualify for this downgrade an end user must be a business (including governmental or educational institutions) and is expected to order annually at least 25 customer systems with the same custom image.
