

## Compaq 100eu Small Form Factor PC

Get your great ideas from thinking small

Empower your employees without going over your budget. The Compaq 100eu SFF puts the power of computing into a small, stylish package at an affordable price. With Genuine Windows XP Home, a 160GB 7200 SATA-3.0 Gb/s hard drive, 1GB PC2-6400 DDR2-800 SODIMM of system memory and an Intel® Atom D410 Processor, you can use the computer right out of the box and get right down to business.

### **Stylish simplicity without the sacrifice**

The sleek, light-weight Compaq 100eu SFF delivers balanced performance at 1/3 the size of other desktop PCs. Quickly connect and transfer information to and from external devices with the 6-in-1 digital media reader and six Hi-Speed 2.0 USB ports. With the Super-Multi DVD, back up data or listen to your favorite CD. The pre-installed trial Microsoft Office Suite provides the essential functionalities to increase productivity and manage your time. With built-in Internet connectivity, instantly communicate with telecommuting employees or clients anywhere using the front-access headphone and mic ports, protected by McAfee Antivirus.

### **Durability without the waste**

Your business will save money while you save the environment. Designed for efficiency, the Compaq 100eu SFF is manufactured with the same quality materials as previous generation microtowers, only with 50% less of the metal and plastic. It uses 85% of the external power supply, saving electricity. The class 2 acoustics make it quieter than traditional desktop PCs, reducing noise pollution around the office.

### **Reliability without the worry**

Productivity won't be hindered with consistent performance from the Compaq 100eu SFF. All Compaq PCs are backed by HP, the world's #1 PC brand in quality and service. Protected by our standard, one-year warranty, you can always expect award-winning support and service for your IT investment. We simplify technology so you can focus on business!

## Compaq 100eu Small Form Factor PC

This system may require upgraded and/or separately purchased hardware and/or a DVD drive to install the Windows 7 software and take full advantage of Windows 7 functionality. See <http://www.microsoft.com/windows/windows-7/> for details. Windows 7 Professional disk may be included for future upgrade if desired. To qualify for this downgrade an end user must be a business (including governmental or educational institutions) and is expected to order annually at least 25 customer systems with the same custom image.
