

HP One-view Perforated Adhesive Window Vinyl produces stunning, durable see-through window graphics full of vibrant colour and fine detail. It comes with permanent, clear self adhesive that removes cleanly without glue residue – even after 6 months.

Ideal for Print Service Providers wanting to diversify their business with high-quality, durable window graphics applications using HP Latex, low-solvent, solvent and UV-curable ink based printers.

Stop traffic with bold graphics full of vibrant colour and fine text and detail, ideal for viewing up close. Print with HP One-view Perforated Adhesive Window Vinyl and get high-impact graphics on the front, clear visibility from the back.

Enjoy the ease of working with this vinyl polymeric substrate. The permanent, clear self-adhesive removes cleanly, even after 6 months. This trouble-free solution helps save time and money.

Count on lasting results – prints achieve up to 1 year outdoor display permanence, unlaminated¹. Maintain an efficient workflow with this high-performance and fire resistant (M1) substrate².

¹Image permanence and water-resistance ratings by HP Image Permanence Lab
Outdoor display permanence tested according to SAE J2527; in a vertical display orientation in simulated nominal outdoor display conditions for select high and low climates, including exposure to direct sunlight and water; performance may vary as environmental conditions change
For more information, see www.hp.com/go/supplies/printpermanence

²Meets the following fire-resistant ratings: M1 / NFP 92-501 (France).

HP One-view Perforated Adhesive Window Vinyl

Compatibility

For compatibility information, please refer to the latest Large Format Supplies Compatibility chart on www.hp.com/go/designjet/supplies

For the latest ICC/media profiles, please visit www.hp.com/go/designjet/supplies (click on ICC profiles and select your printer). For non-post script printers see your external RIP vendor.

Product specifications

Weight	288 g/m ² (with liner), 155 g/m ² (without liner) per ISO 536 Test Method		
Thickness	16 mil/406 microns (with liner), 6.5 mil/165 microns (without liner) per ISO 534 Test Method
