

HP Compaq LA2306x 58,4 cm (23") LED Backlit LCD Monitor

The new evolution of displays has arrived

Introducing an expansive Full High Definition ¹ LED backlit monitor with a thin profile, extensive comfort adjustability, and impressive durability.

Bigger just got better

The expansive, yet slender 58,4 cm (23") diagonal full HD¹ widescreen display on the HP Compaq LA2306x is sure to bring any view to life. The soft black design nearly vanishes into the background so you can focus on the vibrant imagery on the LED backlit panel. But there is more to this monitor than a sizeable, modern, body. Other innovative components of this monitor include:

- Full HD resolutions¹, a 1M:1 DCR, a 170° wide viewing angle and fast 5ms response time help provide precise views²
 - A slider stand with an extensive 130mm height range adjusts high and low to reach many different users
 - 35° of tilt helps provide clear views at many different angles
 - 90° pivot rotation reduces the need to scroll
 - Swivel makes sharing your screen as simple as a quick turn of the head
 - VGA, DVI-D, DisplayPort inputs provide a wide range of connectivity options
 - A built-in 2 port USB hub puts flash stick data at hand
- VESA compatibility provides a wide range of mounting options

Helping you "Go Green" with LEDs

The LA2306x has features that can help make a positive impact on the environment as well as your business.

First, because it is a LED panel, it does not contain mercury, thus eliminating the concern over the use of the element. So when the time comes to replace your monitor, you can feel good about your responsible recycling efforts.

Next, LEDs are small, solid state components, so the monitor is not only thin and light, but it is more robust than previous CCFL monitors.

Finally, as LED technology evolves and becomes more widespread in more industries, CCFL monitors will simply be left in the dark.

Other responsible features of the LA2306x include:

- An EPEAT® Gold registration³
- An ENERGY STAR® qualification
- A TCO Displays certification
- Arsenic-free display glass⁴

THE
COMPUTER
IS PERSONAL
AGAIN.
