- HP SmartStream Mosaic that enables one-of-a-kind signage. The feature has been used by Coca-Cola to produce hundreds of one-of-a-kind striking and creative signage displays

HP SmartStream Designer— a powerful workflow component in the HP SmartStream family

HP SmartStream is a graphic arts portfolio of components that helps customers create production workflow solutions to meet a broad range of market segments and application needs. The HP SmartStream portfolio provides end-to-end workflow management, from job creation to fulfillment. When combining best-in-class HP SmartStream and partner components, the result is greater flexibility, with specific solutions to address key market segments that are customizable and scalable to your unique business needs.

HP SmartStream Designer for Adobe Illustrator

Designed as a plug-in for Adobe Illustrator you can create, integrate, and preview all personalization jobs containing fixed data or variable text and image elements.

HP SmartStream Designer includes the HP SmartStream Mosaic feature, that enables one-of-a-kind products, creating a memorable customer experience for a wide range of corrugated packaging applications. Consider the “wow!” factor of customers each getting their own, unique product. Automatically generate a high number of unique graphics for embedding into a variable data job, all from a fixed number of seed patterns, using scaling, transposition, and rotation.

Key features include:

- Easy-to-use interface
- Access to full design functionality of Adobe Illustrator
- Support for PDF output format
- Simplified rules for personalization
- Connectivity to third-party solutions:
 - Personalized URLs: MindFire
 - Barcodes, 1D and 2D: TEC-IT Barcode Studio and IDAutomation
- Supports MacIntosh® and Windows platforms
