

HP TouchPad

Works like you, so you get more done.

The new HP TouchPad is designed to work like you. Letting you connect, play, surf, and share more easily¹. No barriers. No complications. Just a seamless flow from one thing to the next. HP TouchPad. There's nothing like it.

Next-level multitasking

Get a simple, natural way to move from one thing to the next. Have related activities automatically grouped together into card stacks.

Just type

Simply start typing to search the web, update your status, or begin just about anything¹. Think about what you want to do, not how you have to do it.

100% web

Browse the full web at blazing speed with support for the latest web technologies, including Adobe Flash^{1,4}.

Face-to-face

You can receive text messages, answer phone calls⁸ and have video conferencing on the large screen^{2,3,5}. Plus, with touch-to-share capabilities⁸ move a website onto your HP Pre³ by simply touching the devices together.

Wireless printing

You can print quickly and wirelessly to all compatible networked HP printers⁷, work with Microsoft® Office files and collaborate with your colleagues using Google Docs or Box.net¹.

Amazing sound

Download movies and TV shows, play games, view photos, read magazines and listen to music the way the artist intended, with Beats Audio™ – amazing sound quality, only from HP⁶.

Everybody On 

HP TouchPad

¹ Within wireless coverage area only. Actual speeds may vary. E-mail, mobile number and related information required for set-up and activation. Required data services sold separately, unlimited plan recommended and may be required. Not all web content may be available.

² Voice service requires separately purchased service contract. Availability may vary by carrier.

³ Within wireless coverage area only. SMS requires data services at additional cost.

⁴ Supports a beta of Adobe Flash Player 10.1.

⁵ Check with carrier for video calling availability and restrictions.

⁶ Third-party software available separately. Within wireless coverage area only. Requires data services at additional cost. Not all apps available on all devices.

⁷ The webOS print solution will support all network-capable HP printers that support PCL page description language in the local LAN. These printers include new HP ePrint-capable printers – Photosmart, Officejet and LaserJet – as well as legacy printers approximately 5 years old or newer. ePrint requires an Internet connection to the printer. Feature works with any Internet- and email-capable device and will require a firmware upgrade. Print times may vary. For a list of supported documents and image types, see www.hp.com/go/ePrintCenter.

⁸ Only with web OS compatible phones.
