

# Production Optimization Onsite Visit

HP Indigo Value-Add Services

Latin America

Our expertise empowers you to quickly maximize the value of your investment. **Simply. Economically. Profitably.**

The goal of this Production Specialist visit is to enable you to deliver a quality product to your clients efficiently and profitably.

The Production Specialist will work closely with the Digital Press and Digital Front End (DFE) operators to review and reinforce all aspects of their classroom training and build upon that knowledge to get them to the next level of proficiency.

## Overview

### Target

All HP Indigo Digital Press customers, primarily site management and print production staff.

### Benefits

- Increase productivity.
- Maximize uptime.
- Increase operator proficiency.
- Maximize consumables management.
- Increase profitability.

### What you get

Customized session tailored to your unique needs – Both the 2-day or 4-day Production Specialist visit can be tailored to your specific press configuration and workflow. Allow the solid industry expertise of our Production Specialist to enable you to increase productivity, uptime and throughput. This will allow you to reach peak impressions and production targets sooner.

You will increase productivity by educating operators and management on optimizing best practices for press operation, maintenance and press consumables management.

Basic Digital Press Operator and Basic DFE training courses are prerequisites for this service.

Customized sessions tailored to your unique production needs.
