

Green Up your Cleanup

Techniques and recipes that will save time, save money, and save the earth. Here's how to green-clean:

- The kitchen—countertops, appliances, and cabinets
- The bath—fixtures, faucets, tile, and more
- Around the house—walls, windows, floors, and upholstery
- Outdoors—the garage, car, and workshop

We're Making Books Greener, Inside and Out.

At Creative Homeowner we're committed to producing books in an environmentally sound way and to helping our customers make greener choices.

Manufacturing books in the United States ensures compliance with strict environmental laws and eliminates the need for international freight shipping, a major contributor to global air pollution.

And printing on recycled paper helps minimize our consumption of trees, water, and fossil fuels. The cover of *Green Up Your Cleanup* was printed on paper made with 100% post-consumer waste recycled fiber. The interior text was printed on paper made with 100%

post-consumer waste, processed in a fiber recycled bin. According to Environmental Defense Paper Calculator, by using this innovative paper instead of standard papers, we achieved the following environmental benefits:

Trees Saved: 134
Water Saved: 47,022 gallons
Solid Waste Eliminated: 2,011 pounds
Air Emissions Eliminated: 3,022 pounds

For more information on our environmental practices, please visit us online at www.creativehomeowner.com/green
