

# HP XL Pigment Inks

## Expand your business with durable, full-color short-run label printing

Explore the potential enabled by new HP pigment inks for the HP Scanning Imager 1100. Designed for short-run label printing, new color HP pigment inks produce professional, full-color results. Durable, water-resistant labels are ideal for more demanding display environments.

This high-quality, reliable, 100% pigment-based ink solution from HP enables your business to offer customized industrial color labels and other applications that require durable label performance.

## Enter new markets with HP pigment-based inks

Whether you already have a solution based on the HP Scanning Imager 1100 with HP dye-based color inks, or you're new to the label printing market, the addition of HP color pigment-based inks to the HP Specialty Printing Systems portfolio creates new potential for your business.

Ideal for desktop, color-label printing, HP pigment inks enable original equipment manufacturers (OEMs) to expand into durable, full-color industrial applications. Examples are labels for the refrigerated aisle, GHS<sup>(1)</sup> labels for chemical identification, and indoor and outdoor signage for construction or industrial sites.

<sup>(1)</sup> Globally Harmonized System written by the U.S. Department of Labor and being adopted by many countries.

## Achieve durable, fade-and water-resistant results

High-performance Original HP inks are designed to provide high-quality results along with high-productivity performance. Prints produced with HP XL pigment inks on the HP Scanning Imager 1100 are an ideal match for the needs of industrial color labels, providing over 6 months light fade and water resistance<sup>(1)</sup>.

### HP dye-based ink solution

Vibrant color ideal for consumer markets:

- Informational labels
- Prime (dry) labels

### HP pigment-based ink solution

Durable performance ideal for industrial markets:

- Personal hygiene labels
- Refrigerated goods
- Outdoor applications

Enter new industrial markets enabled by the durable performance of the HP pigment-based ink solution

HP pigment inks for the HP Scanning Imager 1100 are compatible with a wide variety of common industrial stocks, providing the print permanence and durability that enable you to expand your business to offer both dry-label applications with HP dye-based inks as well as full-color industrial label printing with HP pigment-based inks<sup>(2)</sup>.

## Ordering information

New HP pigment inks and printheads for the HP Scanning Imager 1100 are designed together to provide reliable, high-productivity performance. Proprietary enhancements to the HP pigment-based ink formulation help prevent printhead clogging and can extend printhead life.
