

Certified HP Genuine Replacement Parts

Quality assured

What are Certified HP Genuine Replacement Parts?

Certified HP Genuine Replacement Parts are components that have been tested by HP.

HP applies rigorous compatibility testing, revision updates and quality management to every part that flows through our extensive Support Supply Chain. This ensures protection of the HP Brand and means customers can be assured of part integrity and quality control from HP and our HP Authorized Parts Resellers.

Where to obtain Certified HP Genuine Replacement Parts?

Certified HP Genuine Replacement Parts can be obtained through HP and our HP Authorized Parts Resellers.

How do I know that I am dealing with an HP Authorized Parts Reseller?

HP Authorized Parts Resellers can provide to you, on request, a copy of their authorization certification as proof.

For more information and the full list of HP Authorized Parts Reseller in your region, visit HP Parts Store: hp.com/buy/parts
