

Brief

# HP Support Assistant Instant support on your PC

Convenient. Always on. Customised. Free.<sup>1,2</sup>

## For the life of your PC

Get immediate answers to your everyday support questions with HP Support Assistant, a free self-help tool that's built right into your PC.<sup>1</sup> Best of all, there's no setup or installation required. It is ready to go the first time you turn on your PC, and it is updated over the life of your PC.<sup>2</sup> When you need a little hands-on help, you can directly connect to HP Support through the tool.<sup>2</sup>

It comes pre-installed on every new PC with Windows® 7 or Windows® 8. It is available on HP notebooks, netbooks, desktops for Home and Business.

### Manage your PC with ease

- See everything in a simple dashboard-style menu.
- Get PC alerts and support status right in the taskbar.

### Keep your PC running at its best

- Receive software and driver updates from HP and choose to have them installed automatically.
- Let HP Support Assistant monitor the overall health of your PC and suggest actions to maintain its performance.
- Troubleshoot problems on your own using built-in diagnostic tools and resources.

### Save time with one-stop support

- Get answers and solutions your way with a choice of help options.
- Contact your local support centre, and for better assistance send PC data<sup>3</sup> to a technician.<sup>2</sup>

<sup>1</sup> For more information visit [hp.com/go/hpsupportassistant](http://hp.com/go/hpsupportassistant). [Link will vary outside of the U.S.] HP Support Assistant is only available on Windows-based PCs.

<sup>2</sup> Internet connection required for updating and connecting to HP Support.

<sup>3</sup> The data transfer feature is available on select PCs and in select areas
