

HP 180GB Solid State Hard Drive

HP storage solutions for your HP business notebook provide additional storage flexibility and expandability. The HP 180 GB* Solid State Drive allows you to store your data on a hard drive with no moving parts.

A solid state drive does not need to spin up or mechanically seek files like conventional hard disk drives do, significantly improving boot-up, shut down, and application loading times as well as overall application responsiveness.

Multi Level Cell (MLC) NAND flash memory supports faster transfer speeds and higher cell endurance than hard disk drives.

Native Command Queuing allows the drive to have several write or read commands outstanding at the same time.

Operating Temperature	0° to 70° C
Dimensions	Out of package: 6.98 x 10.2 x 0.7 cm
Weight	Out of Package: 78 g
Additional information	P/N: H4T75AA UPC/EAN code: 887111646026
