

Brief

A simple plan to cost-effectively manage your enterprise printers

HP Page Plan

HP Page Plan includes:

- A simplified contract
- Your choice from a selection of new HP imaging and printing devices
- Device installation
- Supplies management
- Hardware support
- Maintenance kit replacement service
- Priority phone support
- Monthly page usage billing
- Optional: HP Technology Solutions (available in select geographies)

HP Page Plan: an HP Managed Print Services (MPS) offering

Reducing printer-related expenses may be one of the fastest ways to cut costs and enhance IT efficiency. And, in today's dynamic economy, more and more enterprises like yours are looking for greater choice and flexibility to manage costs and investments. We understand, so we built a services offering within our HP Managed Print Services (MPS) portfolio for organizations who want to get started—HP Page Plan.

HP Page Plan is an easy way to quickly achieve cost savings and manage imaging and printing assets. HP Page Plan simplifies the purchase of new HP imaging and printing products, supplies, and hardware support into a single print services contract. You also have the flexibility of including your qualified existing hardware. It's ideal for customers who want to self-manage their own environments instead of outsourcing, but also want some of the benefits from the value-added services that are part of the comprehensive HP MPS suite.

Solution at a glance

HP Page Plan is a convenient solution that allows your enterprise to start realizing the benefits of HP MPS efficiencies, with flexibility to scale over time. You gain lease and finance advantages for acquiring the hardware, supplies, and support you need, without overwhelming capital expenditures. Down the road, you can expand to more customized MPS offerings—but you move at your own pace, and only when it makes sense for your organization. It's a smart approach.

HP Page Plan provides:

- **Convenience**—Access to new HP hardware, supplies, and support under one contract
- **Flexibility**—Lease and purchase options for hardware procurement; variable contract terms and hardware support options
- **Efficiency**—A single telephone number with priority access for your support needs, plus HP Service Portal for support requests, supplies ordering, usage reports, and contract information

- **Reduced administrative costs**—Streamlined supplies ordering through Automated Supplies Management; device-initiated toner/ink sensing and ordering
- **Scalability**—Ability to scale up to an even more comprehensive HP MPS agreement to maximize productivity and information flows
- **Consulting**—HP counsels to help you understand your imaging and printing needs and determine your next steps

- **Security**—Environment, network, device access, user authentication, and data safeguarding with security and compliance solutions from HP (only available in geographies where HP Technology Solutions is available)

HP three-part approach

HP helps you better serve your customers by accelerating business processes, improving the flow and use of information, and reducing costs. Working together, we assess, deploy, and manage your imaging and printing system—tailoring it for where and when business happens.

Optimize infrastructure

Balance your total digital and hard-copy communication costs with your need for convenient user access and productivity.

Manage environment

Maintain end-to-end visibility and control of devices, content, and workflows.

Improve workflow

Capture, connect, and communicate information with smart process automation and dynamic content personalization.
