

HP Classroom Manager

Classroom control, management, and collaboration at the click of a mouse

Take control of the classroom and manage student Windows, Chrome, Android, OSX ¹ and iOS devices with HP Classroom Manager 3.0. Enjoy an intuitive, easy-to-use experience with an array of digital tools designed to redefine the digital classroom, prevent unwanted distractions, and enhance student learning.

Control student applications, web access, and external devices.

Take control of student desktops to deliver content; restrict application, hardware, and Web access; and chat one-on-one or in groups. Convert optical drives, USB devices, and other external drives to read-only mode to help avoid the introduction of unauthorized materials, viruses or the theft of classroom content.

Monitor student activities and progress.

Keep an eye on student progress and promote engagement by monitoring open applications, Web usage, and keyboard strokes.

Capture and review previous student activities with Web, application, IM, and printing histories.

Create a collaborative environment.

Enrich student learning with collaborative sharing of messages, group chats, websites, documents, and more.

Compile a PDF journal throughout the day to help students keep track of activities and assignments. Develop lesson plans, maintain a record of all content and discussions, and add chapters or create bookmarks to stay organized.

¹ Compatible with iMac devices only when accessing HP Classroom Manager through the Google Chrome™ browser.

Evaluate student comprehension with an array of formative assessment tools.

Create tests with audio and video files, and instantly track student scores in real-time. Instantly gauge comprehension levels with response surveys.

Deploy game show-style Question and Answer quizzes to ensure collaborative learning. Capture and playback student voice recordings with the audio-monitoring feature, which is ideal in language lab settings.

Efficiently manage and keep PCs up and running.

Start student computers from the teacher or technician console, and conserve power by centrally shutting down all PCs. View and manage student printing activities and exchange files. Boost performance with Windows 8.1 and 10 device optimization and touchscreen support.

The Technician's Console delivers detailed hardware and software information to school IT staff. Take remote control of connected PCs, distribute files, and view and set OS, anti-virus, and Internet-protection software policies.

HP Classroom Manager

Product Specifications:

Product	HP Classroom Manager Software 3.0
Part Number	V1E73AA – HP Classroom Manager 3.0 Upgrade for existing HP Classroom Manager 2.0 customers V1E72AA – HP Classroom Manager 3.0 Stand-alone V1M61AA – HP Classroom Manager 3.0 Teacher License for School Pack
