

HP Multi-Tablet Charging Module

Power up. We keep you going day after day.

Say goodbye to stacks of tablets and a sea of power cords. Quickly and easily charge, store, and secure up to 10 tablet PCs inside a compact module so they're ready when you need them.

Charge your HP ElitePad, HP ENVY x2, or any AC-powered tablet device up to 11.6 diagonal inches.

Easy one-time hardware setup by simply connecting each tablet's AC adapter to the module's interior power strip and plugging the module into an AC outlet. A blue LED HP logo lights up confirming the module is powered.

The doors fold back for easy loading and unloading of tablets. Adjustable dividers can be removed and repositioned to support storage of thicker tablet devices and devices with jackets and cases.

A keyed lock on the front doors keeps the tablets securely housed while charging. For additional safekeeping, an external locking mechanism secures the module to a counter or desk.

A vented back panel and two fans help circulate air inside the module. The thermally efficient design stays cool to the touch.

Keep tablets ready to deploy for field and mobile personnel. Perfect for doctors and nurses to charge up their devices between rounds, and ideal for classroom settings to secure and charge student tablets overnight.

Get peace of mind from the worldwide limited three-year warranty.

Part number	4W98AA
Module dimensions (W x D x H)	18.1 x 21.7 x 12.5 in (460 x 551.5 x 316.6 mm)
Module weight (w/o equipment)	31 lb (14.1 kg)
Stacking weight capacity (on frame)	68.3 lb (31 kg)
Notebook bay dimensions (W x D x H)	1.2 x 13.8 x 10.16 in (30.5 x 350.5 x 258 mm)
	NOTE: Tablet dividers are removable, enabling creation of variable width slots.
Shipping dimensions (W x D x H)	21.5 x 25.4 x 15.4 in (545 x 645 x 390 mm)
Shipping weight	37.5 lb (17 kg)
Kit Contents	HP Multi-Tablet Charging Module, power cord, security screw/wrench, and 1 set of keys.
