

HP Retail Expansion Dock for ElitePad

Retail Solutions

¹ Not all features are available in all editions of Windows 8. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8 functionality. See www.microsoft.com. The integrated display resolution of this system is below the threshold for snapping apps, a new feature that allows two Windows apps to be viewed simultaneously side by side. This feature may be enabled by attaching an external display, which supports a screen resolution of 1366 x 768 or higher.

From mobile to stationary and back again – it's a snap. Slip the HP ElitePad¹ Mobile POS Solution into the HP Retail Expansion Dock for a fully integrated solution.

Smooth move.

Dock your mobile device and plug into your complete range of POS peripherals for a comprehensive sales transaction. Access cash, print receipts and more.

Easily raise, lower, and tilt the screen for optimal viewing comfort thanks to a dual hinge design. Add a secondary display via the HDMI and VGA ports.

Feel free to roam. Your mobile POS unit can be key-locked into the HP Retail Expansion Dock, which can be secured to the counter or cash drawer.

HP Retail Expansion Dock for ElitePad*
