HP Indigo Labels and Packaging Technical Sample Kit

The HP Indigo Labels and Packaging Technical Sample Kit demonstrates HP Indigo's unique press printing capabilities and includes the following samples.

1. **Flexibility sample.** Printed with new HP ElectroInk Premium White printed in surface, reverse and sandwich all on the same sample.
2. **Color gamut sample.** Printed with HP IndiChrome 7-color printing using CMKY plus orange, violet and green.
3. **HP Indigo White ElectroInks.** Covering the widest range of opacity in one process. This sample shows a variety of opacities on one label from basic white with 1 hit up to 3 hits of premium white
4. **White for sleeves.** Sleeve sample printed with HP Indigo ElectroInk White for Sleeves.
5. **Enhanced Productivity Mode sample.** Printed 33% faster using EPM.
6. **Fade resistant Yellow and Magenta ElectroInks.** Test-it-for-yourself sample showing Indigo's new yellow and magenta formulation enabling high resistance to direct sunlight for outdoor applications
7. **HP Indigo Fluorescent Pink ElectroInk.** Enjoy new eye-catching designs and unique applications. The ink glows under UV light.
8. **HP Indigo Electroink Premium white** in comparison to other technologies: UV Flexo, UV Inkjet and Screen Printing
