# IT made easier

HP Configuration and Deployment Services help you save time and money

# Let HP do the heavy lifting

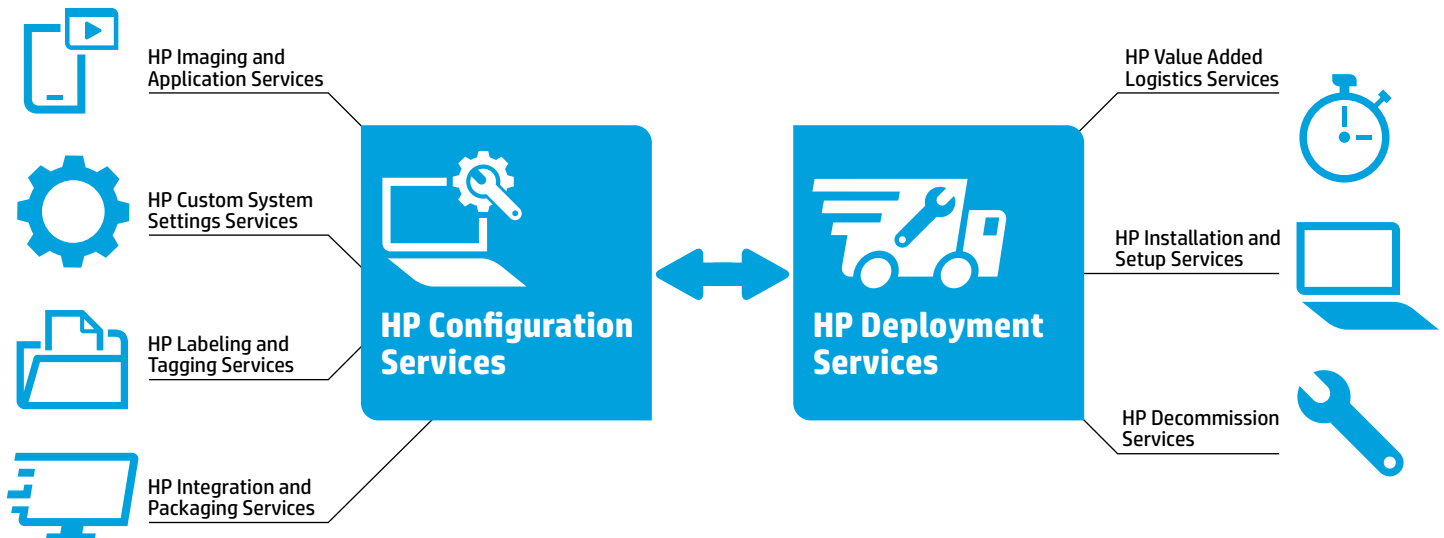

HP helps you cut costs, conserve precious time, and stay focused on your business with ready-to-use hardware products in global solutions.

## Accelerate time to value for your new hardware

Deploy hardware knowing that your systems are tailored to your needs and delivered on your terms and timelines.

You have a lot to gain by partnering with HP for the configuration and deployment of your new, ready-to-use PC devices.

- **Reduce costs, save time, and help your bottom line**—We can configure your HP hardware directly from the factory.
- **Gain confidence and peace of mind**—HP will deliver PCs to you that align with your IT policies.
- **Cover the world**—With HP's global scale, it's easy to deploy validated configurations across your enterprise.

- PC products configured and customized
- Tailored to meet your exact specifications
- Business ready, straight from the factory
- Maintain consistent PC BIOS settings globally

## HP Imaging and Application Services

Take the complexity out of preparing your computing systems for deployment. HP can be your single point of contact for building, modifying, and loading your PC images at the factory—even for multiple platforms. Gain the flexibility of knowing your devices will arrive ready to work.

### HP services for imaging PC devices:

HP PC Image Load

HP PC Image Modification and Load

HP Image Build and Load

HP Multi-Platform PC Image

HP PC Applications Load

HP Backup Media Design and Replication

## HP Custom System Settings Services

Maintain consistent PC BIOS settings across your enterprise with HP Custom System Settings Services. Hardware is delivered from the factory with system BIOS parameters configured to your specifications. HP will apply your settings during the build process, providing devices that are work-ready so your users experience less downtime and greater productivity.

### HP services for customizing your device settings:

## HP Labeling and Tagging Services

Protect your business by safeguarding your PCs. With physical and electronic anti-theft tagging installed at the factory, HP gives you tighter control over your assets and reduces your risk of loss. HP Labeling and Tagging Services ensure that labels are printed consistently and securely affixed according to manufacturer standards and your requirements.

### HP services for labeling and tagging your PC devices:

## HP Integration and Packaging Services

HP handles all the details of device integration right at the factory. HP Integration and Packaging Services can procure and integrate HP or non-HP hardware to deliver standardized PC devices, complete with documents, cables, and accessories. By leveraging industry-leading factory, logistics, and integration processes, HP can reduce packaging to support your green initiatives while simplifying tasks for your IT team.

### HP services for your integration and packaging needs:

HP Drop-in PC Packaging

HP Device Model Management

HP Third-Party Hardware Integration

## HP GetMore Service for Configuration

With proven governance and management methodologies, HP GetMore Service for Configuration helps you:

- Solve business requirements through increased level of PC customization
- Gain control greater over the entire project
- Build a strategic relationship with HP as your trusted PC customization adviser
- Enjoy simple ordering and billing

**HP Deployment Services**

- Non-working day hardware delivery
- Professional installation of new devices
- Easy migration of existing data
- Ability to recycle old equipment

## HP Value Added Logistics Services

HP provides carefully choreographed logistics to help you deploy your hardware with confidence. HP Value Added Logistics Services can handle all the key details, from coordinating delivery to unpacking your systems to removing the packaging materials. We offer non-working day hardware delivery across the globe.

### HP services for value added logistics:

## HP Installation and Setup Services

After your new HP hardware has arrived on-site, let HP Installation Services lighten the load for your IT staff. HP professionals can get systems up and running fast, providing a menu of services that ranges from basic installation to advanced packages—including on-site image installation and data migration.

### HP services for installation and setup:

## HP Decommission Services

Implementation is only complete once your old hardware is properly retired. Reduce costs and the burden on your staff by turning to HP Decommission Services to take charge of your retired devices—from hard drive removal or destruction to recycling of assets and packaging materials.

### HP services for decommissioning your hardware:

## HP GetMore Service for Deployment

Can't find what you need from our standard deployment services? We can respond to your specific deployment needs with HP GetMore Service for Deployment. With high-level customization to deliver, secure, and deploy PC units, HP GetMore Service provides:

- Project management to manage your deployment
- Customization of our available standard services
- Can be ordered on a per-unit basis
