

HP Retail Jacket

Take care of business, from the palm of your hand

Add the HP Retail Jacket to the HP ElitePad¹ to create the right mobile solution for your environment, from retail, to health care and education.

By increasing mobility and accessibility to data at the point of touch, you can facilitate real time communication with your customers that results in increased efficiency and higher customer satisfaction.

Untethered productivity

The built-in 1D/2D barcode scanner has multiple uses:

- Scan customer information such as patients' wristbands and medications in healthcare.
- Scan ID cards or library book barcodes in education.
- Warehousing to check inventory in manufacturing and back room stock.
- Perform credit card and other mobile transactions in retail.

Gain additional functionality with the ability to utilize the existing ElitePad Camera, Headphone Jack, and Volume Controls, plus the additional USB port that the Retail Jacket offers.

Steady and ready for action.

Use the hand strap to steady the mobile POS so you can focus on what you're doing without worrying about awkward slips or grip fatigue.

Never slow down.

The optional secondary battery helps you keep working without worrying about recharging.
