

HP DesignJet T795 Printer

Larger prints for bigger projects

QUALITY – Quickly produce outstanding results

- Six Original HP inks produce a wide colour gamut ideal for colour graphics.
- Original HP grey and photo black inks achieve precise line accuracy, dark blacks, and true neutral greys.
- Communicate with precision – produce plans, drawings, and maps with fine line quality, and up to 2400 dpi.
- Print up to A0 without sacrificing quality; create A1-size prints in 28 seconds with Economode.

CONVENIENCE – Speed up printing with easy workflow

- Print TIFF, JPEG, and PDF² files from your printer's USB thumb drive – no computer required.
- If you're on-the-go, attach your document to an email and send it directly to your printer via ePrint.¹
- The intuitive touchscreen simplifies navigation and printing.

FLEXIBILITY – Prints on sheets or rolls up to 1118 mm (44 in)

- Gain flexibility to print a range of sizes from sheets to 1118-mm (44-inch) roll width.
- Use different media – this printer supports everything from bond and coated papers to film and vinyl substrates.
- Print a range of CAD and GIS applications, including large infrastructure projects and geospatial mapping.

¹ Local printing requires mobile device and printer to be on the same network (usually Wi-Fi access points bridge wireless to wired connections). Wireless performance is dependent on physical environment and distance from access point. Wireless operations are compatible with 2.4 GHz operations only. Remote printing requires an Internet connection to an HP web-connected printer. Wireless broadband use requires separately purchased service contract for mobile devices. Check with service provider for coverage and availability in your area. See <http://www.hp.com/go/designjetmobility> for more details.

² PDF files only available with PostScript® (PS) accessory (optional accessory to be purchased separately).
