

HP PageWide Web Press Mission Critical Services

Helping customers maximise business productivity

HP PageWide Web Press Mission Critical services is a tailored suite of premium services that helps customers meet their most demanding production commitments with confidence.

Target customer

HP PageWide Web Press customers who have critical print operations requiring maximum uptime and availability from their press, and who cannot afford unplanned downtime.

Two main customer scenarios include:

- A need for this type of service for a defined period of time — "Burst Mode"
- Ongoing contractual services

Ideal characteristics

This service is for HP PageWide Web Press installed base and new press owners worldwide.

The need

Maximised press uptime

Predictability to make tight deadlines

Tailored solutions to meet their business needs

Partner who understands their business and helps them be successful

The combination of Core, Foundation, and Proactive services, fully customised to each customer's needs, maximise press availability and production predictability, boosting business sustainability.

Value proposition

HP PageWide Web Press Mission Critical service is designed to improve the customer's print operations and help them boost their business productivity and achievements. With this tailored suite of premium services, the customer can meet their demanding production commitments with confidence in their press' availability and efficiency.

All Mission Critical service alternatives are managed by an expert assigned team, who knows the customer's business. HP PageWide Web Press customers can gain peace of mind and thrive by partnering with HP, a proven industry leader in delivering services.
