

# HP Classmate Notebook PC

The HP Classmate PC is an affordable, durable, powerful student-friendly computing solution. With features like rich video and audio capabilities, students get engaged and develop 21st century skills while educators are empowered to manage the classroom.

## HP recommends Windows.

### Windows 8.1.

- Start up in an instant, switch between applications quickly, and manage files more easily, with the quick and fluid Windows 8.1.<sup>1</sup>

### Great solution. Great price.

- The HP Classmate PC helps provide computing power students need at a price accessible to schools around the world.

### The most advanced classmate ever.

- Help maximize learning and enable breakthrough education experiences with the right balance of performance, features, and battery life with the new Intel® Celeron® Dual-Core processors.<sup>2</sup>

### Take a field trip without leaving the classroom.

- Invite guests and experts in your classrooms from all over the globe using incorporated video conferencing featuring an adjustable HD webcam,<sup>3</sup> digital microphone and speakers.<sup>4</sup>

### See it clearly.

- Students are more mobile than ever. The HP Classmate PC allows students to work in almost any environment with an anti-glare 25,65 cm(10.1") diagonal HD display.

### Help keep students safe

- Set permissions and parameters around safe searches and downloads to protect the HP Classmate PC from malware and other threats.

### Convenient handle.

- Students can carry their HP Classmate PC easily with the integrated carrying handle.

## Messaging Footnotes

<sup>1</sup> Not all features are available in all editions of Windows 8.1. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8.1 functionality. See <http://www.microsoft.com>.

<sup>2</sup> Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

<sup>3</sup> High definition (HD) content is required to view high-definition images.

<sup>4</sup> Internet service required and not included.

## Technical specifications disclaimers

<sup>1</sup> Not all features are available in all editions of Windows 8.1. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8.1 functionality. See <http://www.microsoft.com> for details.

<sup>2</sup> Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

<sup>3</sup> Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.

<sup>4</sup> For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 36 GB (for Windows 8.1) of system disk is reserved for the system recovery software.

<sup>5</sup> Wireless access point and Internet service required and sold separately. Availability of public wireless access points limited.

<sup>6</sup> HDMI cable sold separately

<sup>7</sup> HD content required to view HD images.

<sup>8</sup> Internet access required.
