

HP Classroom Manager

Feature Comparison Guide

Supporting mixed-student environments (Windows, Chrome, Android and iOS), the redesigned **HP Classroom Manager** software gives educators control over unwanted classroom distractions, enables real-time communication and enhances student learning. Learn about how features vary per operating system in this comparison guide to better understand how they can best fit your customer's needs.

Why do features differ by operating system?

While Windows devices possess the largest set of features others may be more limited. This is primarily due to functional limitations of the operating systems. Use the chart below to make sure that the features you need are found on the operating system you use.

Feature Comparison Chart — listed in order of relevance to educators

	Windows 7, 8, 8.1	Thin Client	Chrome	Android	iOS
Student screen capture	•	•	•	•	
Lock screen	•	•	•	•
