

## Brief

# Accounting and mobile printing solution

## HP and Pcounter

Add Pcounter for print cost recovery, rules based printing, or simple usage tracking, along with EveryonePrint for mobile printing.

### What if you could:

- Report, track, and bill back clients and/or charge for print/copy/scan/fax?
- Mobile print on any device with ease?
- Save money on all print and copy?
- Become a more environmentally friendly company?
- Get custom reporting?

## The solution for print accounting

Ideal for customers who need to track, report, bill back, and/or pull print on print, copy, scan, or fax documents. Also for customers who need a mobile printing solution for all devices.

## Pcounter for HP overview

Pcounter server will track and report all printing from any device. When Pcounter is embedded in an HP multifunction printer (MFP) you can track, report, and bill back all copy, scan, and fax documents, and give the user the ability to do pull printing (Follow Me print). Pcounter will also integrate with most card systems, as well as with student card systems, e.g., Blackboard or CBORD. EveryonePrint is a mobile printing solution that allows users to print from any mobile device for any location via Web, print, driver print, email print, print via app, and/or Google cloud device.

## Working together with HP

Silver HP business partners offer leading-edge solutions that integrate with HP's wide portfolio of LaserJet imaging and printing products, and provide HP customers with an unparalleled breadth and depth of solution offerings around the world.

### Solution benefits

- Reduce print and copy costs
- Track print/copy/scan/fax documents
- Charge for print/copy/scan/fax
- Be more environmentally friendly
- Pull printing (Follow Me Print)
- Mobile printing from any device

### Our solution partner

## Pcounter for HP printing solutions

Pcounter for HP is an add-on software product that interacts with HP MFPs in a number of ways. Pcounter for HP handles network authentication to the HP MFP via touch screen and USB card access with a login sequence that can include network names and/or passwords, IDs, and/or PIN numbers, as well as client billing codes. Pcounter for HP can retrieve all job records including printing, copying, faxing, and scanning in color, mono, or duplex, and add them to the standard Pcounter logging and reporting records. Users can track by client billing codes or user accounts and are then able to bill back the cost. Pcounter for HP can also be used for secure print job release or pull printing.

All user interaction takes place on the MFP touch screen, eliminating the need for any additional hardware. The Pcounter Scan Server can also route scanned documents to users' email addresses and home directories using directory lookup without the need to create an internal address book. Many organizations will find Pcounter for HP helps them reduce printing—from small businesses and elementary schools to multi-national corporations and large universities including a wide variety of vertical markets such as Education, Legal, Financial, Healthcare, and Public Sector.

## Service and support

Pcounter is headquartered in the U.S. All installation, training, and ongoing services are handled internally by our highly trained Pcounter staff on all of our software. For more information please call Pcounter at 415.701.9992, ext. 225 or email us at [sales@pcounter.com](mailto:sales@pcounter.com).

## Building on the value of strong relationships

By working side by side with HP, we have all the resources, experience, and knowledge needed to deliver customized solutions that meet your unique business requirements. For more than 50 years, HP has designed solutions that allow customers to actively anticipate change, and then act on it. Together, we use future-focused technology and services to design solutions that produce lasting value and maximum results—helping you meet today challenges while preparing for tomorrow's.
