

Site Assessment

Installation

Warranty (6 months)

Basic Operator Training

Digital Front End Training

Ramp-Up

"I have just invested in an HP press, and need to start printing as quickly as possible."

1 The install PM completes the Completion of Installation (COI) which validates that the press is installed and is running to manufacturing specifications. After COI, pre-selected customer jobs and media are run on the press for your final validation and acceptance – Customer Solution Acceptance (CSA). Once this is completed, the HP Inkjet Web Press is ready to ramp-up to full production.

Full Support

Shared Maintenance

Multi-Vendor Support

Uptime Kits

Preventive Maintenance

Advanced Operator Training

Train to Maintain

"I need a predictable business operation, and to reduce the risk of unplanned downtime."

2 Prerequisite for the Shared Maintenance Programme is successful completion of the HP Inkjet Web Press Basic Operator and Train-to-Maintain training courses.

Health Check

HW/SW Upgrades

Mission Critical

Account Management

"My press runs well, but I need more productivity, and to reduce the total operating costs per print."

Relocation

"My production needs have changed, and I need to reposition or relocate and get my press ready for production."

Get Started

Support Services

Site Assessment

HP Graphics Solutions Services work with you to prepare your site for the HP Inkjet Web Press. An HP Channel Partner Engineer conducts a comprehensive site survey to ensure the various aspects of the installation are planned in detail. This takes into account power requirements, environmental controls, site access, networking and other factors to streamline installation and ensure optimisation of the production environment.

Installation¹

HP Graphics Solutions Services team of specialised engineers, led by an Installation Project Manager will install the HP Inkjet Web Press and bring it to full operational level.

Warranty

The HP Inkjet Web Press and Digital Front End (DFE) comes standard with a six-month warranty and support service. Additional purchase of a support programme extends both the hardware and support coverage, depending on the device for which it is purchased.

Manage Printing

Support Services

HP Graphics Solutions Services offers a full line of support and service programmes for all HP Inkjet Web Presses and DFE workflow systems hardware and software. These are divided into two main programmes: Shared Maintenance Support and Full Maintenance Support. Each programme includes a combination of Remote Support and Onsite support:

Remote Support. The multi-tier, HP Customer Care Centre offers telephone assistance for your HP Inkjet Web Press and DFE system from experienced engineers. They employ remote diagnostic tools and technologies to remotely monitor your press, which results in real-time solutions and higher availability for your HP equipment.

Onsite Support. If an operational problem occurs with your HP Inkjet Web press that cannot be resolved remotely, the HP Customer Care Centre will dispatch a Customer Engineer to provide onsite support.

Full Support

The Full Support programme includes a full range of proven preventive, diagnostic, remedial and repair services carried out by HP professionals. It includes phone support, onsite service visits, mandatory software and hardware updates, as well as replacement parts and ground freight.

Optimise Production

Customised Services

HP Graphics Solutions Services offers a wide variety of productivity-enhancing programmes for all HP Inkjet Web Presses and DFE workflow computing systems. With these services, we help you proactively increase uptime, optimise performance and maximise every minute of print capacity.

Health Check

Health Check services include the visit of an experienced HP Specialist to review the health of systems and to tune the press for optimal performance.

Hardware/Software Upgrades

The Press Upgrade Service is an onsite service that can accommodate various press upgrades. It covers the HP resources required to perform the upgrade installation as well as providing training so you can quickly reap the benefits. Multiple service tiers support varying levels, scope, and complexity.

Manage Change

Relocation Services

Relocation Services are designed for HP Inkjet Web Press owners who are looking for a complete relocation of their HP Inkjet Web Press equipment, across the site or across the country. End-to-end support is provided through an HP engineer.

Training Services

HP Graphics Solutions Services offers a comprehensive training curriculum that provides the knowledge and skills necessary to utilise the full capabilities of the HP Inkjet Web Press solution. Our training programmes emphasise hands-on practice in a professional learning environment. Courses taught at our HP Inkjet Web Press Training Centre are also available onsite at your location. Courses offered include:

- **Basic Operator training** is designed for new HP Inkjet Web press operators, in order to use the press safely and effectively. Training empowers operators to optimise the capabilities and the return on investment on an HP Inkjet Web press.
- **Digital Front End training** provides the knowledge required to perform job submission using the HP Job Submission Tool. In the second half of the training, prepress workflow engineers are trained to monitor and troubleshoot data flow through the web press Digital Front End (DFE).

Productivity Services

Productivity Services are provided during a customised onsite visit by an HP Production Specialist, who works closely with both operators and management to optimise best practices for press operation, maintenance and press consumables management.

Ramp-up

To maximise the value of your investment and ensure a quick transition to full production, HP Graphics Solutions Services offers onsite Production Ramp-up Support. HP's Production Specialist works with the HP Inkjet Web Press and Digital Front End (DFE) operators to:

- Reinforce skills learned during formal training
- Offer workflow and production tips related to specific customer jobs
- Maximise press uptime and increase productivity
- Increase operator proficiency
- Optimise consumables management
- Speed up the learning process period

Shared Maintenance²

Shared Maintenance enables you to assume responsibility for certain service and maintenance procedures, guided by phone support from HP Customer Care experienced remote support engineers. The programme includes phone support, limited onsite visits per calendar quarter, mandatory software and hardware updates, and replacement parts.

Multi-vendor Support

Multi-vendor Support provides first-level support and a single point of contact for your HP Inkjet Web Press and finishing equipment.

Uptime Kits

The Onsite Uptime Kit is designed to help reduce downtime and increase productivity by having the right replacement parts onsite 24x7. The four levels of uptime kits include: Standard, Supplemental, Supplemental Plus, and Comprehensive. Uptime Kits are also available for third party vendors.

Preventive Maintenance

Preventive Maintenance is the routine maintenance procedures performed by a qualified HP operator, including cleaning and repair of equipment and software in line with the recommendations of the service manuals and training. This can also be an additional customised service provided by HP engineers.

Training Services

Advanced Operator Training

Advanced Operator Training enables operators to perform more than just the basic operation of HP Inkjet Web press. Attendances are trained on common problems related to environment, finishing equipment, and the press.

Train to Maintain

Train to Maintain is a lecture-style and hands-on course focused on the repair, maintenance and troubleshooting of HP Inkjet Web Presses. Reduce press down time by quickly and accurately diagnosing problems and finding solutions.

HP Inkjet Web Press Mission Critical Services

Helping customers maximise business productivity

HP Inkjet Web Press Mission Critical services is a tailored suite of premium services that helps customers meet their most demanding production commitments with confidence.
