

# HP lt4112 LTE/HSPA+ W8.1 WWAN

The HP lt4112 LTE/HSPA+ W8.1 WWAN for select HP Business Notebooks uses integrated WWAN technology for connection to, and roaming on, wireless networks in many countries mainly in the US, Canada and Puerto Rico.<sup>1</sup>

- Check e-mail, browse the Internet, and connect to corporate networks from anywhere within the coverage area. Dedicated broadband helps ensure enhanced connection security vs. public wi-fi.
- Flexible and automatically chosen best data services available per location whether it is LTE FDD, GSM/GPRS/EDGE or WCDMA/HSPA+. This is particularly useful for users roaming on several different networks.
- Enjoy the freedom of connecting in more places, the speed of broadband, and the coverage of 4G networks.
- Standalone GPS enablement delivers location identification and personal navigation.<sup>2</sup>

<b>Country of Origin</b>	China
<b>What's in the box</b>	lt4112 LTE/HSPA+ W8.1 WWAN; Documentation

<sup>1</sup> Separately purchased carrier service required. Check with service provider for coverage and availability in your area. Connection speeds will vary due to location, environment, network conditions, and other factors.

<sup>2</sup> GPS access requires an unobstructed path to multiple satellites. Performance may be affected if/when used inside of buildings, bridges or heavily-congested metropolitan areas. Requires separately-purchased GPS navigation software available from multiple GPS applications.
