# HP Desktop Mini— Great performance in a small package

## The desktop has evolved.

Packed with integrated enterprise-class performance, security and manageability features, the HP Desktop Mini is HP's smallest business desktop yet. Power through your day with speed and performance. Get the latest in processing technology with your choice of 6th Generation Intel® Core™ processors<sup>1</sup> with optional Intel® Core™ vPro™<sup>2</sup> technology.

## Fits anywhere for Zero footprint

Efficiently crafted to save space and energy, the HP Desktop Mini will fit almost any workspace where you need mission critical reliability. Smaller than some desk phones, you can mount<sup>3</sup> it on the back of a monitor, to a wall, or underneath a desk for enhanced security, and convenience—ideal for business environments (labs, retail kiosks, conference rooms) where workspace may be limited.

HP offers a variety of optional products (each sold separately) designed to complement your HP Desktop Mini and enhance the overall computing functionality and experience.

## Enhance security and expandability

The HP Desktop Mini's clean, easily serviceable design with integrated VESA mount facilitates flexible deployments<sup>4</sup> to help enhance the workspace. Experience versatility with easy options for expansion and upgrades to best meet your business needs. The optional mounting hardware and expansion modules are sold separately.

### HP Desktop Mini Lockbox

Fortify your Desktop Mini in a range of settings with the HP Desktop Mini LockBox, HP's most secure enclosure for your PC, power brick, and cable connections. The HP Desktop Mini Lockbox is specifically engineered to protect your Desktop Mini with a durable metal enclosure and tamper resistant design that deters pulling, tugging or disconnecting cables from the outside with integrated cable routing and clips. You are able to deploy this solution almost anywhere by placing your PC, power brick, and cable connections inside the enclosure and using the VESA pattern to mount to a flat surface, like a wall or a desk.<sup>5</sup> Then after you've installed and mounted your system inside the HP Desktop Mini LockBox, add a traditional padlock or an HP UltraSlim Lock<sup>6</sup> for an extra layer of protection.

Part Number: P1N78AA

### HP Desktop Mini Rack Mount Tray Kit

The HP Desktop Mini Rack Mount Tray Kit<sup>6</sup> offers a manageable way to store and secure multiple Desktop Minis inside an industry standard server rack that can be locked. The tray kit provides easy access to all ports, making installation and deployment simple.

One tray kit can support up to 8 Desktop Minis. Two tray kits can support an entire server rack shelf of 14-15 Desktop Minis with room for cabling—allowing all Desktop Minis to be up and running within the server rack, if desired. The HP Desktop Mini Rack Mount Tray Kit works in tandem with an optional HP SlimCable Lock for additional physical security. Server rack and shelves must be purchased separately.

Part Number: G1K21AA

### HP Desktop Mini Security/Dual VESA Sleeve

Highlighting flexibility of mounting and safety, the HP Desktop Mini Security/Dual VESA Sleeve<sup>6</sup> is ideal for securely mounting your HP Desktop Mini to a wall or to almost any flat surface, as well as to a VESA-compliant display<sup>6</sup>. It is also ideal as a pairing combo option where it can be mounted to a wall to secure an expansion module for a Desktop Mini with an attached monitor. The HP Desktop Mini Security/Dual VESA Sleeve has additional loop lock and HP SlimCable Lock attachments for additional physical security.

Part Number: G1K22AA

## Expansion Modules

The following optional HP Desktop Mini expansion modules<sup>5</sup> provide the functionality of a larger form factor PC with additional external hard disk drive (HDD) and optical disk drive (ODD) expandability, and additional legacy I/O supporting PS/2, serial, and 2 USB 2.0 ports.

### HP Desktop Mini 500GB HDD/ I/O Module

Part Number: K9Q82AA

### HP Desktop Mini DVD Super Multi-Writer ODD Module

Part Number: K9Q83AA

### HP Desktop Mini I/O Module

Part Number: K9Q84AA

## Maximize your available workspace

### HP Integrated Work Centre—Desktop Mini / Thin Client

Make the most of small workspaces and maximize performance and productivity in a compact footprint with an optional HP Integrated Work Centre Stand<sup>7</sup> for your HP Desktop Mini. Create a customized “all-in-two” compact desktop solution by combining a display<sup>6</sup> with your HP Desktop Mini—giving you convenient access to all of its front inputs, connectors, and power buttons.

Find your best viewing position with adjustable tilt, swivel, and height adjustment settings. Built-in HP Quick Release enables easy installation and removal of the monitor.

The Integrated Work Centre—Desktop Mini / Thin Client is designed to exclusively accommodate HP Desktop Mini, select Thin Clients<sup>8</sup>, HP Chromebox, and the HP LCD monitors (each sold separately).

Part Number: IWCdm–G1V61AA

### HP Wireless Business Slim Keyboard and Mouse

Part Number: N3R88AA

## Reduce the tangle and clutter on your desk

### HP Desktop Mini Port Cover

Keep it clean. Best manage your cables with the Desktop Mini Port Cover. The Port Cover easily slides and clicks into rear slots on the Desktop Mini and attaches without any screws or additional parts and then you are able to cleanly guide your rear cables through the side guided slot to reduce clutter. Can be used when unit is positioned in vertical HP Vertical Chassis Tower Stand. Compatible with all Desktop Mini G2 units only.

Part Number: P3R65AA

### HP Wireless Business Slim Keyboard and Mouse

Part Number: N3R88AA

## Customize your monitor for the way you work best

Your monitor is the centre of your computing world, so you should be able to customize it for the features and functionality best suited to your needs. The HP family of optional monitor products (sold separately) is designed to complement your monitor and enhance your overall computing experience.

### HP Monitor Quick Release

The HP Monitor Quick Release Bracket<sup>6</sup> is an easy-to-use, 100 mm VESA-compliant, LCD monitor mounting solution that allows you to quickly and securely attach a flat panel monitor to a variety of stands, brackets, arms or wall mounts.<sup>6</sup> HP Quick Release can also be used for mounting combinations of devices that are compatible with the 100 mm VESA Flat Display Mounting Interface Standard. The fail-safe “Sure-Lock” mechanism snaps the monitor (or mounted device) securely in place, and can be further secured with a theft-deterrent security screw.

When securely storing PCs is a priority, the HP Quick Release Mounting Bracket helps make mounting and removal from most flat surfaces a breeze. HP Quick Release enables uniquely flexible product configuration alternatives in a variety of settings, such as:

- Store-fronts/kiosks: Mount flat panel monitors for easy viewing and add touch-screens for interactivity.
- Trade shows: Securely mount LCD TVs or monitors in common areas and quickly remove them for safekeeping at the end of the day.
- Front office environments: Minimize desk space requirements with wall or swing-arm mounting of monitors in reception areas.
- Medical/institutional settings: Securely mount monitors in nursing stations and public areas.
- Conference rooms: Mount projectors (with 100 mm VESA-compliant pre-drilled holes) on ceilings, and monitors on walls or tables.

Part Number: EM870AA

### HP PC Mounting Bracket for Monitors

Part Number: N6N00AA

### HP Single Monitor Arm

Sleek and streamlined, the HP Single Monitor Arm<sup>6</sup> frees up valuable desk space. The flexible arm adjusts to your size, posture and work preference. The adjustable clamp makes it easy to secure.

Part Number: BT861AA

### HP Adjustable Dual Display Stand

The HP Adjustable Dual Display Stand<sup>6</sup> allows you to use two displays to maximize your productivity and optimize efficiency. Either or both displays can be rotated to landscape or portrait orientation, and the stand is depth-, height-, tilt-, and angle-adjustable so you can view both screens at eye-level as well as slightly facing each other, letting you track multiple applications and information sources at the same time. Integrated base rollers let you rotate the stand so you can more easily share your work.

Part Number: AW664AA

### HP Speaker Bar

The HP LCD Speaker Bar<sup>5</sup> adds audio features to HP LCD monitors without compromising desk space. The bar, which attaches to the bottom bezel of the monitor and is powered through the PC's or monitor's USB ports, adds stereo speakers with full sound range and an external headphone jack. The HP LCD Speaker Bar is an excellent choice for improving the quality of multimedia presentations, streaming online video or Web-based seminars.

Part Number: NQ576AA

- <sup>1</sup> Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
- <sup>2</sup> Some functionality of this technology, such as Intel® Active Management Technology and Intel® Virtualisation Technology, requires additional third-party software in order to run. Availability of future "virtual appliances" applications for Intel vPro technology is dependent on third-party software providers. Microsoft Windows required.
- <sup>3</sup> Mounting hardware sold separately.
- <sup>4</sup> Optional, add-on feature.
- <sup>5</sup> For Wifi use with the HP Desktop Mini inside the HP Desktop Mini LockBox, the Mini must be configured with optional WLAN and external antennas when ordered.
- <sup>6</sup> Each sold separately.
- <sup>7</sup> The IWC is sold separately. The IWC is compatible with select displays up to 24 diagonal inches and select HP Desktop Mini PCs, HP Thin Clients, and the HP Chromebox. See product QuickSpecs for exact device compatibility.
- <sup>8</sup> HP Thin Client supported is the t520.
