# Delivering the highest patient experience

HP ElitePad Healthcare Tablet—high-powered productivity, made portable

Imagine equipping your healthcare organization with the mobility needed to work more efficiently and enhance the patient experience. Make real-time decisions at your patients' bedsides. Keep patient data confidential. And access the information you need from wherever you are. The HP ElitePad Healthcare Tablet supplies mobility and capability in a thin, light mobile solution designed specifically for clinical settings.

### **Mobile technology, designed with healthcare in mind**

Have the freedom to move wherever patient care takes you. The HP ElitePad Healthcare Tablet provides easy access to tools that can help streamline workflows, increase productivity, and improve provider-patient interactions—even in the toughest clinical conditions. Complicated tasks flow better and faster. Capturing information is easier and more accurate. Now you can perform critical tasks, even while connecting with your patients.

## Efficiency and comfort, on the go

Executive pen clip provides easy access for writing—anywhere, anytime

2D barcode reader<sup>1</sup> makes administering drugs and registering patients quick and efficient

Certified smart card reader provides authorized-only access to patient data

Rugged outer shell protects against accidental drops<sup>2</sup>

Ergonomic, quick-release hand strap helps ensure comfort on the move

## Smart devices help clinicians give patients more personal attention

**Challenge:** Medical personnel need more responsive devices that let them access secure, real-time patient data without getting in the way of quality care delivery. For example, rolling big carts from patient to patient is cumbersome and can shift attention away from valuable one-on-one interactions with providers.

**Solution:** The HP ElitePad Healthcare Tablet is designed to reflect the healthcare professionals who use it—tough, agile, and ready for anything. Clinicians can carry the ultra-portable tablet with them wherever they go, making it easier to collect accurate patient information. They can scan a patient's ID band at the point of care to help verify the correct medication dosage, plus quickly capture and share information—improving quality of care and freeing up time to give patients more personal attention.

## Built for wellness, safety, and durability

Maintaining accuracy is vital and safety is mandatory in healthcare environments where conditions can change in a heartbeat. The HP ElitePad Healthcare Tablet is equipped with built-in defense mechanisms to withstand many clinical environments, so you can more easily respond to patients' rapid-fire needs.

- Safeguard your tablet against accidents—with an easy-to-clean surface that meets IP54 standards for resisting dust and fluids,<sup>3</sup> and a durable design that meets MIL-STD 810G testing to withstand drops.<sup>2</sup>
- Work in comfort wherever you go—the tablet's ergonomic design and contoured edges help promote occupational health.
- Get high-resolution access to critical information. The tablet's multi-touch panel and large screen deliver crisp, clear data and images.
- Achieve ready-for-anything performance with Microsoft® Windows® 8.1 Pro<sup>5</sup> quad-core Intel® processor, and 4 GB memory.
- Tested to comply with EN/IEC 60601-1-2<sup>6</sup> requirements for basic safety and essential performance ensuring the HP ElitePad Healthcare Tablet can integrate into the healthcare provider workflow without compromising the care delivery environment at the bedside or beyond.
- Have confidence that your tablet is up to the task—the extended battery life helps you power through your work.<sup>7</sup>

## High-powered security features safeguard patient data

From the moment patients check in to the time they go home, it's likely that multiple clinicians have been in charge of their care. The HP ElitePad Healthcare Tablet's embedded security features help eliminate the risk of sensitive patient information becoming compromised. No matter where patients go throughout their stay, help ensure that only authorized personnel will have access to their data.

- Help keep patient records secure with a certified smart card reader, HP Client Security, and HP Basic Input-Output System (BIOS) Protection—integrated right into the tablet.
- Safeguard against data breaches with the built-in Trusted Platform Module (TPM)<sup>8</sup> 1.2 software, and hardware-based full-disk encryption.
- Securely manage patient data and clinical devices—anywhere, anytime. HP Touchpoint Manager provides cloud-based IT solutions,<sup>9</sup> and Locate Device allows clinical staff to locate, lock, and wipe<sup>9</sup> their tablet in the event of theft or loss.

## Embedded tools help reduce medical errors

Updating patient charts and maintaining the accuracy of electronic medical records (EMR) in a hospital or clinical environment can feel chaotic. The HP ElitePad Healthcare Tablet makes quick work out of complex tasks—while minimizing the risk of errors.

HP offers a suite of optional accessories<sup>10</sup>—a pen, keyboard, adapter, and power solutions—to expand the versatility of the HP ElitePad Healthcare Tablet.

HP Executive Tablet Pen G2

- Securely validate personnel and patients, and streamline the administration and cataloging of medications with a 2D barcode reader.<sup>1</sup>
- Perform accurate dictation—even in a noisy setting—with built-in noise-cancelling software.
- Easily alert medical staff of scans, instead of straining to hear them in a loud environment, with green-dot verification.

## Robust accessories supply unlimited options

The challenges of delivering patient care in a variety of clinical settings requires medical personnel to be more agile, so they can easily adapt to new environments and demands. Help clinical staff achieve maximum productivity—no matter the setting—with the HP ElitePad Healthcare Tablet suite of optional accessories<sup>10</sup> that match any task at hand.

- Make data collection on the move quick and easy, with the HP Executive Tablet Pen G2.<sup>10</sup>
- Give nurses and clinicians the option to work on the fly, or at their desktop, with a versatile docking station.<sup>10</sup>
- Take the tablet with you using the quick-release hand strap or optional shoulder strap.<sup>10</sup>
- Rest easy—the tablet comes with HP's world-class, 1-year limited warranty. Or extend your protection with optional HP Care Pack Services<sup>11</sup> to ensure hardware and software keeps running smoothly.

## Bringing mobility solutions to healthcare environments

For 50 years, HP has delivered innovative solutions that meet the unique needs of the healthcare industry. We've folded the expert insights of healthcare professionals into the design of the HP ElitePad Healthcare Tablet to help you keep performing at your best. Designed to work seamlessly together, HP's hardware, software, accessories, and services are expanding the possibilities of patient care—anywhere and everywhere it is delivered. HP is committed to providing solutions that improve workflows, increase accuracy, and free up time, so you can focus on enhancing the patient experience.

Contact your HP representative to build the best solution for your hospital, clinic, hospice, or office.

<sup>1</sup> Select configurations.

<sup>2</sup> MIL-STD 810G testing is not intended to demonstrate fitness for U.S. Department of Defense contract requirements or for military use. Test results are not a guarantee of future performance under these test conditions. Drop damage is covered with an optional HP Accidental Damage Care Pack.

<sup>3</sup> The solution is covered under HP limited warranty for IP54 dust and water ingress.

<sup>4</sup> See user guide for cleaning instructions. Quick-release pins, camera lenses, flash cover, barcode reader cover, screws, screen, and HP logo are not treated with antimicrobial.

<sup>5</sup> Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, and/or software to take full advantage of Windows functionality. For more information, see [microsoft.com](http://microsoft.com).

<sup>6</sup> The ElitePad Healthcare Tablet is a general purpose computing device and is not intended for use in the diagnosis, cure, treatment, or prevention of disease or other medical conditions.

<sup>7</sup> Windows 8, MM12 battery life will vary depending on various factors including product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See [bapco.com](http://bapco.com) for additional details.

<sup>8</sup> Firmware TPM is version 2.0. Hardware TPM is v1.2, which is a subset of the TPM 2.0 specification version v0.89 as implemented by Intel Platform Trust Technology (PTT).

<sup>9</sup> Select features are available only with purchase.

<sup>10</sup> Sold separately or as an optional feature.

<sup>11</sup> Service levels and response times for HP Care Packs may vary depending on your geographic location. Service starts on date of hardware purchase. Restrictions and limitations apply.

For details, visit [hp.com/go/cpc](http://hp.com/go/cpc). HP services are governed by the applicable HP terms and conditions of service provided or indicated to customer at the time of purchase. Customer may have additional statutory rights according to applicable local laws, and such rights are not in any way affected by the HP terms and conditions of service or the HP Limited Warranty provided with your HP Product.
