**Note:** HP PageWide XL printers are not designed to use continuous ink systems. HP PageWide XL printers are designed for ink cartridges to be used until they are empty. Refilling cartridges prior to depletion might cause the printer to fail, and voids the HP ink cartridge warranty.

Based on reliable HP Thermal Inkjet technology and HP PageWide XL pigment ink, HP PageWide Technology offers high quality at high printing speeds. Scalable to meet a wide range of application and performance requirements, HP PageWide Technology provides breakthrough print speeds for both whiteprints and blueprints.

## HP PageWide Technology

The HP PageWide XL 8000 Blueprinter includes a stationary 101.6-cm (40-inch) printbar that spans the whole printing width. As paper moves under the printbar, the entire page is printed in one pass, enabling very high printing speeds.

## HP PageWide XL pigment ink for HP PageWide XL blueprinters

8 (2 x 775-ml black and B1, 4 x 775-ml B2) with auto-switch

HP PageWide XL pigment ink is specially designed to provide reliable and dependable operation with HP PageWide XL blueprinters and to produce high-quality output:

- Crisp lines, fine detail, and smooth grayscales
- Archivable, moisture- and fade-resistant prints<sup>6</sup>

## Reliable operation for high-volume printing

Designed for high-volume operation, the HP PageWide XL 8000 Blueprinter is based on proven HP PageWide Technology, currently powering HP PageWide Web Presses—producing 4 billion impressions monthly—and HP PageWide Pro and HP PageWide Enterprise printers.

HP 841 PageWide XL Printheads provide reliable and long-life operation, with an average life per printhead of 32 liters of ink.

## End-to-end productivity

HP PageWide XL systems have been designed to help you provide radically faster delivery.

To help you meet aggressive deadlines, productivity is optimized in every step of the workflow:

2. With an ultra-fast processor and the embedded Adobe PDF Print Engine 4,<sup>7</sup> HP PageWide XL blueprinters are designed for quick processing, including the most complex jobs
3. Printing up to 18 A0/min—for whiteprints and digital blueprints; 6 A0 /min for natural tracing paper with:
  - Breakthrough print engine speed of up to 23 meters/minute (75 feet/minute)
  - Very short time between pages (up to 0.15 seconds)
  - Extended time between service station cycles (up to hundreds of pages)
  - Quick switches between loaded rolls (under 5 seconds)
4. Bidirectional communication between the HP PageWide XL blueprinter and the production stacker/online folder<sup>2</sup> provides reliable operation

<sup>7</sup> The Adobe PDF Print Engine (APPE) is Adobe's high speed, high fidelity print platform. Version 4 extends APPE's leading edge for print reproduction with new performance efficiencies and breakthrough rendering features. APPE 4 enables printers to increase workflow efficiency and capitalize on the profit potential of innovations in inkjet print technology.
