

HP 32GB (1x32GB) DDR4-2133 MHz ECC LR RAM

Boost the capabilities of your HP Workstation and newest multi-core processors with load reduced memory that combines the data security of ECC and the ability to support the highest capacity of RAM per memory card.

Efficient technology.

- Enable ultra-high memory configurations and maximum performance of very large and complex modeling/analysis at the lowest cost by increasing the number of low-cost memory modules that can be included on the memory card (DIMM).

Benefit from integrated ECC.

- Help avoid errors that can corrupt data sets and introduce system issues with Error Checking and Correcting technology that corrects single-bit memory errors.

Get HP-tested reliability.

- Ensure all of your memory characteristics match by upgrading with HP-branded memory that's been tested at the component level and to ensure seamless system-level integration with HP products.

Supported by HP.

- Protect your investment with a warranty that is backed the same world-class HP service and support you get for your workstation.¹
