

HP Chromebox for meetings

Invite colleagues, customers or partners and get teams together from across town or from all over the world for real time video collaboration using HP Chromebox for meetings.²

HP Chromebox for meetings components* *Shown with a large format display (sold separately)

Instant and affordable video collaboration.

Right product, right price

Get all the benefits of a high powered video collaboration solution without the big price tag with the budget friendly Chromebox™ for meetings.²

Ready to go right out of the box

The Chromebox™ for meetings solution is easy to set up right out of the box. Within minutes you'll be ready for your first meeting.

Impressively intuitive

Chromebox™ for meetings is an easy solution powered by Google Hangouts, which is simple and intuitive to operate. Start a scheduled meeting by pushing one button or start a meeting on the fly by just giving it a name.²

Collaboration tools included

Share screens, draw and annotate, then save and share your work. Edit documents in real time as a group with optional Google Apps™ for Work.^{1,2}

Meetings with anyone

Join a meeting from almost any device: PCs, phones or tablets². Integrates with existing phone and videoconferencing systems and add a phone number for optional dial-in access.¹

No more patching

Chrome OS™ provides a maintenance free experience with automatic software updates.² Easily manage devices over the web.

¹ Sold separately or as an optional feature

² Internet service required. Availability of public wireless access points limited.

Use how you choose

The flexibility of Chromebox™ for meetings allows use with almost any size or type of TV or display. Tailor a solution that works anywhere like conference rooms, team rooms, individual desktops and mobile carts.

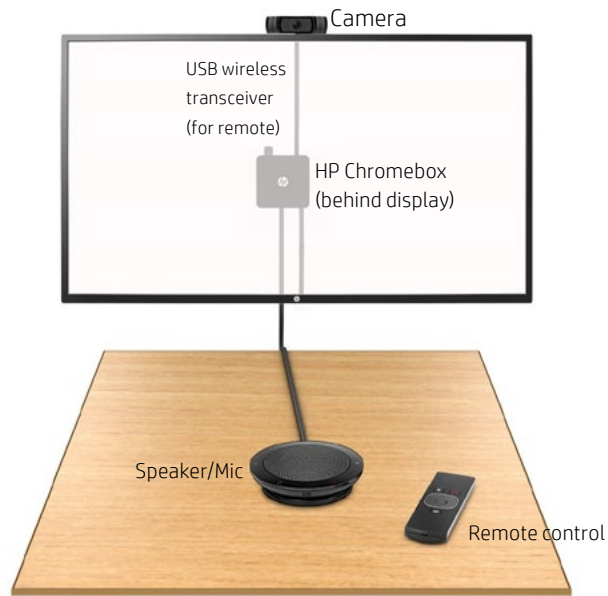

Compatible with your software

Seamless integration with Google Apps for Work^{1,2} and Microsoft Outlook.¹ Add a meeting to a calendar event with one click.

Communicate Securely

Includes the ability to set access restrictions for participants outside of your organization and all communications are encrypted.

How to set up HP Chromebox for meetings

Just plug the components in and place them where needed (large format display sold separately)

HP Services

Downtime can have serious consequences, so HP provides support beyond the standard limited warranty. You benefit from reduced risk, maximized uptime, predictable service delivery and no unbudgeted repair costs.

¹ Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

² Intel® processor numbers are not a measure of performance. Processor numbers differentiate features within each processor family, not across different processor families.

³ High definition (HD) content is required to view high-definition images.

⁴ For hard drives and solid state drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 7 GB of system disk is reserved for system software.

⁵ Wireless access point and Internet service required and not included. Availability of public wireless access points limited.

⁶ External power supplies, power cords, cables and peripherals are not Low Halogen. Service parts obtained after purchase may not be Low Halogen.

⁷ EPEAT® registered where applicable. EPEAT registration varies by country. See www.epeat.net for registration status by country.
