

HP Collaboration PC

HP recommends Windows.

Start meetings quickly with a fast connection to the HP Collaboration PC and associated display.² With extensive accessory options, businesses can expand their reach with a powerful meeting solution protected by enterprise-class security.

HP Collaboration PC*
*Shown with recommended Dual VESA Sleeve and UltraSlim Cable.² Large format display (sold separately)

Enterprise-class collaboration.

Start meetings quickly and easily

- Get going quickly without searching for the right cable to connect to your projector or room display. Just enter your room pin and start your meeting.

Real-time seamless collaboration

- Collaboration in real-time allows you to spend more time creating a finished product instead of noting what needs to be done. Take input from all attendees with side-by-side sharing and annotation that produce real-time results.

Heavy security, exceptionally managed

- Keep it secure, keep it simple. IT efficiency reigns supreme when it's backed by a full portfolio of HP security and manageability solutions.

Customize it to your business

- Accessories² allow for conferencing and collaboration. Choose from a variety of accessories that allow you to create a fixed conferencing tool.

Windows and Intel®

- Windows 8.1¹ and 4th Gen Intel® Core™ i5/i7 processors with vPro™³ power this impressive collaboration solution.

HP BIOSphere

- HP BIOSphere provides stability and protection with automatic updates and security checks.⁴

Intel® Unite™

- Get up and running quickly with Intel® Unite™ software that delivers a simple and instant collaboration capability on your existing wireless networks.

VESA mount

- Connect to optional peripherals² easily with the integrated VESA mount.

Tool-less serviceability

- Remove a simple thumb screw for access to serviceable components.

Testing

- Rest easy, the HP Collaboration PC has endured 120,000 hours of HP's Total Test Process and is designed to undergo MIL-STD 810G tests.⁵

1. Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows functionality. See <http://www.microsoft.com>. Available on select configurations and sold separately.
2. Sold separately or as optional features.
3. Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing system required. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
4. HP BIOSphere features may vary depending on the PC platform & configuration.
5. MIL-STD testing is pending and is not intended to demonstrate fitness for U.S. Department of Defense contract requirements or for military use. Test results are not a guarantee of future performance under these test conditions.

Just plug the components in and place them where needed
(notebooks and large format display sold separately)

HP Services

Downtime can have serious consequences, so HP provides support beyond the standard limited warranty. You benefit from reduced risk, maximized uptime, predictable service delivery and no unbudgeted repair costs.

- 1 Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows functionality. See <http://www.microsoft.com> for details. Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
- 2 Intel® processor numbers are not a measure of performance. Processor numbers differentiate features within each processor family, not across different processor families.
- 3 High definition (HD) content is required to view high-definition images.
- 4 For hard drives and solid state drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 7 GB of system disk is reserved for system software.
- 5 Wireless access point and Internet service required and not included. Availability of public wireless access points limited.
- 6 External power supplies, power cords, cables and peripherals are not Low Halogen. Service parts obtained after purchase may not be Low Halogen.
- 7 EPEAT® registered where applicable. EPEAT registration varies by country. See www.epeat.net for registration status by country.
- 8 HP Security Cable locks are designed, tested, and proven to be an economical and effective deterrent to help prevent opportunistic theft. While HP Security Cable locks help protect supported computer equipment from theft, they are not designed to provide impervious protection and should not be relied on as the sole security solution for your equipment. HP Security Cable locks are only one of several methods that should be employed as part of a complete security solution to help maximize theft protection.
- 9 Sold separately or as optional features.
