

HP PageWide XL 5000 Printer series

Powerful, efficient monochrome and color production with up to 30% savings in total production costs¹

LEAD

Fast delivery times in monochrome and color

- Up to 14 A1/D pages/minute print speed, quick 30-second first page out
- Deliver mixed monochrome and color sets in 50% of the time with a consolidated workflow²
- Start printing in 50% of the time³—an ultra-fast processor, native PDF management, HP SmartStream software
- Free up the operator—production stacker/online folder,⁴ up to 4 rolls, dual ink supplies with auto-switch

GROW

Fast color, excellent document quality

- Generate new business growth—print GIS map, point-of-sale (POS) poster applications at breakthrough speeds
- Set a new technical document standard with crisp lines, fine detail, and smooth grayscales that beat LED⁵
- HP PageWide XL pigment ink for dark blacks, vivid colors, moisture/fade resistance—even on uncoated bond⁶
- Print on a wide range of media up to 101.6 cm/40 inches—covering ISO/US technical and offset standards⁷

SAVE

Cut total production costs up to 30%¹

- Print monochrome and color technical documents at the same or lower cost than comparable LED printers⁸
- Do it all with one space-saving device for both monochrome and color, or opt for the MFP to print/scan/copy
- Cut job preparation and finishing costs up to 50%²
- See up to 5 times lower energy consumption than comparable LED printers⁹

Dynamic security enabled printer. Cartridges using a non-HP chip might not work and those that work today might not work in the future. More at: hp.com/go/learnaboutsupplies

Note: HP PageWide XL printers are not designed to use continuous ink systems. HP PageWide XL printers are designed for ink cartridges to be used until they are empty. Refilling cartridges prior to depletion might cause the printer to fail, and voids the HP ink cartridge warranty.

¹ Production costs savings based on an HP PageWide XL 5000 Printer compared with a combination of a mid-volume monochrome LED printer and a mid-volume color production printer (both under \$40,000 USD) as of April, 2015. Production costs consist of supplies and service costs, printer energy costs, and operator costs. For testing criteria, see hp.com/go/pagewidexlclaims.

² Based on internal HP testing on the HP PageWide XL 5000 Printer compared to preparing and printing the job on two different printers (one comparable monochrome mid-volume LED printer for the monochrome pages and one color printer for the color pages). For testing criteria, see hp.com/go/pagewidexlclaims.

³ Using HP SmartStream software compared with using equivalent software programs. For testing criteria, see hp.com/go/pagewidexlclaims.

⁴ The HP PageWide XL Folder and the HP F60 Folder are optional accessories. The HP PageWide XL High-capacity Stacker may be an optional accessory. Options vary by region.

⁵ For output produced with HP PageWide XL printers and LED printers from different manufacturers and that represent greater than 50% of the annual shipments of LED printers in North America as of 2014 according to IDC. For testing criteria, see hp.com/go/pagewidexlclaims.

⁶ Compared to prints produced with HP 970/971/980 inks that are fade and moisture resistant per ISO 11798 Permanence and Durability Methods certification. For testing criteria, see hp.com/go/pagewidexlclaims.

⁷ ISO/US technical and offset standards include American ANSI and Architectural page size standards, ISO A technical document standard, and ISO B offset page size standard.

⁸ Based on supplies and service costs. Monochrome technical document printing costs for comparable mid-volume LED printers based on printers for large-format printing of technical documents at speeds between 8 and 13 A1/D per minute as of April, 2015 which represent more than 80% of the share of mid-volume LED printers in the US and Europe in 2014 according to IDC. Color technical document printing costs for comparable mid-volume color printers based on printers capable of printing 4 A1/D pages per minute or more and under \$50,000 USD for large-format printing of technical documents as of April, 2015 and representing more than 80% of the market in the US and Europe in 2014 according to IDC. For testing criteria, see hp.com/go/pagewidexlclaims.

⁹ Conclusions based on internal HP testing for a specific use scenario. Comparable printers using LED technology based on LED printers capable of printing 8 to 13 A1/D pages per minute and which represent more than 80% of the share of mid-volume LED printers in the US and Europe according to IDC as of April, 2015. For testing criteria, see hp.com/go/pagewidexlclaims.

Beat record delivery with consolidated workflows—produce mixed monochrome and color sets in 50% of the time.² Achieve up to 30% savings in total production costs.¹ Save space and trim workflow cost with a single device for monochrome and color, or print/scan/copy with a multifunction printer.

HP PageWide Technology

The HP PageWide XL 5000 Printer series includes a stationary 101.6-cm (40-inch) printbar that spans the whole printing width. As paper moves under the printbar, the entire page is printed in one pass, enabling very high printing speeds.

8 HP PageWide XL ink cartridges
(2 x 400-ml per color with auto-switch)

HP PageWide XL pigment ink for HP PageWide XL printers

HP PageWide XL pigment ink is specially designed to provide reliable and dependable operation with HP PageWide XL printers and produce high-quality output:

- Dark blacks and vivid colors on a range of media including uncoated bond papers
- Moisture- and fade-resistant prints⁶

Proven technology for reliable operation

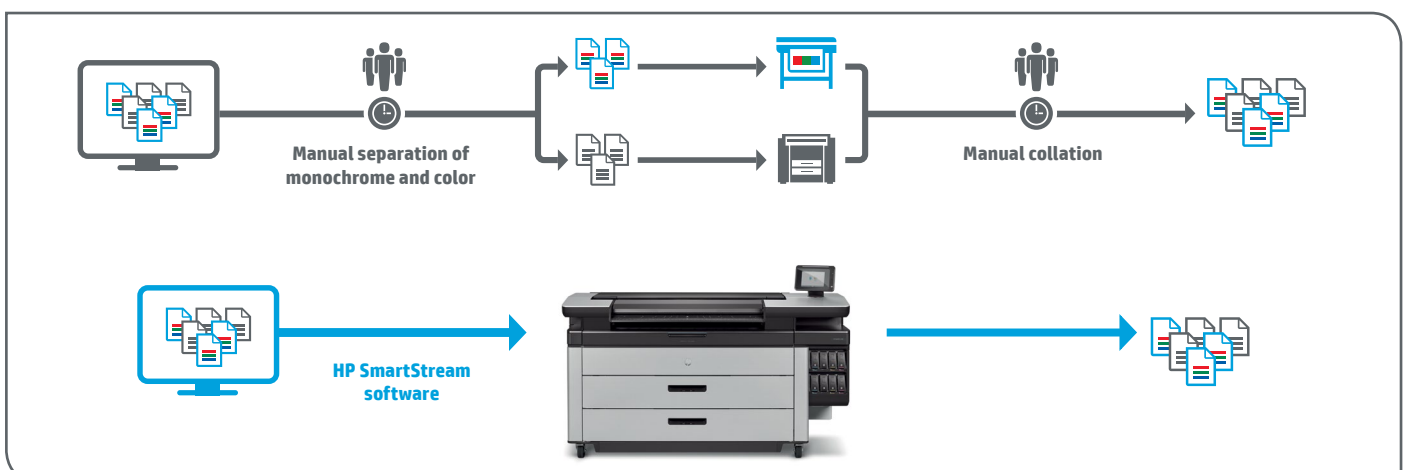

Designed for mid-volume production, the HP PageWide XL 5000 Printer series is based on proven HP PageWide Technology, currently powering HP PageWide Web Presses—producing 4 billion impressions monthly—and HP PageWide Pro and HP PageWide Enterprise printers.

HP 841 PageWide XL Printheads provide reliable and long-life operation, with an average life per printhead of 32 liters of ink.

Save time and reduce complexity by consolidating your monochrome and color workflows

It is very common to print mixed monochrome and color sets—typically a long and complex process that requires separate printing on different printers as well as manual collation.

Consolidated workflow efficiencies in delivering mixed monochrome and color sets help contribute to up to 30% savings in total production costs.¹ HP SmartStream software can help you improve your technical production workflow efficiency for single, multiple operator environments by preparing your jobs in 50% of the time.³

Print fast, deliver faster

1. Using HP SmartStream Preflight Manager, jobs can be prepared in 50% of the time³
2. With an ultra-fast processor and the embedded Adobe PDF Print Engine 4,¹⁰ HP PageWide XL printers are designed for quick processing, including the most complex jobs
3. Print up to 14 A1/D pages/minute in monochrome and color
4. Reduce the wait for short jobs with a quick, 30-second first page out

Gain even greater versatility

Expand the versatility of your HP PageWide XL 5000 Printer series with HP and third-party software and hardware solutions, see hp.com/go/pagewidexl3rdparty.

Cover a wide range of applications with HP large format printing materials optimized with HP PageWide XL printers and pigment inks for high-quality printing, see HPLFMedia.com. And choose from a growing variety of other commercially available media compatible with HP PageWide XL printers, see hp.com/go/mediasolutionslocator.

Set a new quality standard for technical documents

HP 841 PageWide XL Printheads, working with HP PageWide XL pigment ink, are designed to produce durable and high-quality output with dark blacks and vivid colors.

Accurate and reliable dot placement results in crisp lines, fine detail, and smooth grayscales. HP PageWide XL printers do not apply heat to the paper as part of the printing process, enabling very high levels of line accuracy ($\pm 0.1\%$).¹¹

Save space and trim workflow cost with a single device for monochrome and color, and print, scan, and copy with a multifunction printer

1. **Up to 4 rolls**—automatic roll switching when a roll is depleted or a different page size is selected.
2. **Dual 400-ml HP ink supplies** with auto-switch—replace used cartridges while the printer is running.
3. **203-mm (8-inch) touchscreen—status light reports** current status and provides progressive alerts on potential issues that could impact production (i.e., out of paper or ink).
4. **Top stacker**—designed to save space, with capacity up to 100 pages.
5. **High-capacity output solutions**—HP PageWide XL Folder, HP F60 Folder, and HP PageWide XL High-capacity Stacker specially designed to keep up with HP PageWide XL print speeds.

¹⁰ The Adobe PDF Print Engine (APPE) is Adobe's high speed, high fidelity print platform. Version 4 extends APPE's leading edge for print reproduction with new performance efficiencies and breakthrough rendering features. APPE 4 enables printers to increase workflow efficiency and capitalize on the profit potential of innovations in inkjet print technology. To learn more, visit adobe.com/products/pdfprintengine.
