

HP School Pack 2.5 featuring HP Classroom Manager 3.0

Harness technology and embrace flexibility to redefine the classroom

Meet and exceed the global requirements of learners with HP School Pack 2.5, an out-of-the box solution of digital tools and content designed for collaborative, standards-aligned, and personalized learning—and HP Classroom Manager 3.0, the solution that allows you to control devices, monitor student progress, reduce distractions, and enhance learning with collaborative discussion.

Control student applications, web access, and external devices. Enjoy an intuitive, easy to use experience with an array of digital tools.

HP Classroom Manager 3.0 Student Edition

HP School Pack 2.5 includes a perpetual license of HP Classroom Manager 3.0 Student Edition per device, making it easier to manage students and collaborate effectively through classroom technology. Take control of student desktops to deliver content; restrict application, hardware, and Web access; and chat one-on-one or in groups. Convert optical drives, USB devices, and other external drives to read-only mode to help avoid the introduction of unauthorized materials, viruses or the theft of classroom content.

Monitor student activities and progress

Keep an eye on student progress and promote engagement by monitoring open applications, Web usage, and keyboard strokes.

Capture and review previous student activities with Web, application, IM, and printing histories.

Create a collaborative environment

Enrich student learning with collaborative sharing of messages, group chats, websites, documents, and more.

¹ Internet connection required and sold separately.

Compile a PDF journal throughout the day to help students keep track of activities and

assignments. Develop lesson plans, maintain a record of all content and discussions, and add chapters or create bookmarks to stay organized.

Evaluate student comprehension with an array of formative assessment tools

Create tests with audio and video files, and instantly track student scores in real-time. Instantly gauge comprehension levels with response surveys.

Deploy game show-style Question and Answer quizzes to ensure collaborative learning. Capture and playback student voice recordings with the audio-monitoring feature, which is ideal in language lab settings.

Efficiently manage and keep PCs up and running

Start student computers from the teacher or technician console, and conserve power by centrally shutting down all PCs. View and manage student printing activities and exchange files.

The Technician's Console delivers detailed hardware and software information to school IT staff. Take remote control of connected PCs, distribute files, and view and set OS, anti-virus, and Internet-protection software policies.
