*HP recommends one Care Pack for every 200 RGS users. May not be available in all countries.

****VALIDATION REQUIREMENT:** 4 Hour Response Services require travel zone validation by postal code prior to selling this service to a customer to ensure HP can deliver the service level. This service level may be provided in Zones 0-3 with no issues; Zone 4 has delayed response time of 8 hours. Addresses outside of Travel Zones 4 are not eligible to receive this service level. Please contact your Inside Sales Representative or Partner Business Manager (PBM) for assistance.

Standard warranty and service definitions:

Next Business Day Onsite: Deploys an authorized HP representative onsite by the next business day (Monday–Friday) after the call is logged to perform repairs or replace the unit. HP will determine if the defect can be repaired remotely by the use of customer self-replaceable part, or by a service call to customer location.

Accidental Damage Protection (ADP): Covered perils include non-international liquid spills in or on the unit, drops, falls, and electrical surge. This includes damage or broken liquid crystal displays (LCDs) or broken parts. Accidental Damage Protection does not cover loss, theft, or fire. Repair may be performed offsite or onsite.

Defective Media Retention (DMR): DMR allows customers to retain their malfunctioning drive while their defective drive is replaced.

13x5 4-Hour Response: 13x5 4-Hour Response provides same day support 13 hours (8 am to 9 pm), 5 days a week, excluding HP holidays. The 4-hour response time is measured during the coverage window only. For service requests received after 5 pm local time, the response time will be carried over to the next coverage window.

24x7 4-Hour Response: 24x7 4-Hour Response provides same day support 24 hours per day, Monday through Sunday including HP holidays. An HP authorized representative will arrive at the customer’s site any time and day of the year to begin hardware maintenance service within 4 hours of the service request being logged.

HP Recover & Restore: HP Recover & Restore, part of HP Care, allows you to rest assured! If the unthinkable happens, be certain that HP will:

- Recover your lost data
- Restore your Operating System
- Provide you with the software support you need

Remote Graphics SW Tech Support (RGS):

HP RGS is software developed and sold by HP Inc. It allows engineers, animators, and scientists to use all the performance, files, and applications on their workstation even when they are away from that workstation. It is a remote desktop tool on steroids for high end workstation users.

Learn more about RGS at: www.brainshark.com/hpws/HPRGS
The software only carries a 90 day warranty. The RGS Support Care Pack extends the support up to one year.

Post Warranty Care Pack Rules:

- Unit must be in good operating condition.
- Coverage starts at Warranty or Care Pack end date or if purchased up to 30 days after expiration, at time of registration.
- May be sold 90 days before Warranty/Care Pack expiration **but not at time of hardware sale.**
- Product must have more than 1 year of service life (parts support) left in order to sell post warranty options.
- Post Warranty Care Packs cannot be “stacked”. (For example, a 5 year NBD Onsite Care Pack may not be sold with and at the same time as a 1 year Post Warranty Care Pack to try to entitle the hardware for 6 years).
