

HP Battery Solutions for 2012-2017 HP Business Notebooks

Maximize your notebook's mobility and extend its power on the go with a range of battery solutions that help you get more done.

Work smarter and be productive longer with HP Batteries that are designed and tested to ensure optimum power support. HP Batteries include the primary batteries sold with every HP Business Notebook and Mini and a range of secondary batteries to help extend your runtime. Whether you need a spare primary battery or an extra- capacity battery to run your notebook longer while you're on the go, HP has you covered

HP Primary Batteries

HP Primary Batteries are the standard battery replacement for your original HP Notebook Battery. They are an economical choice for users who:

- Primarily use a notebook while plugged in or docked
- Charge the notebook overnight when they take it home

HP Long Life Batteries

HP Long Life Batteries help you be productive longer than standard battery solutions. They have up to a three-year life span that's backed by up to a three-year limited warranty (on select models). These batteries help reduce overall total cost of ownership for your notebook, and minimize battery waste because you'll need fewer batteries over the life of your notebook. Innovative construction includes an insulating safety wrap around the cells, fire-retardant casing, barrier walls that isolate cells from the Printed Circuit Assembly (PCA), and internal connections that prevent pinching and potential short circuits.

HP Extended Life/Ultra Extended Life Batteries

HP Extended Life and Ultra Extended Life Batteries help you maximize your productivity with the maximum battery life available from HP. HP Extended Life Battery can be conveniently charged while the notebook is docked. HP Ultra Extended Life Batteries have an Integrated AC Power Port so you can charge the battery when the notebook's not in use. These batteries are a great solution for "corridor warriors" who require extra battery life for all-day computing, travel, and long meetings. All HP Battery Solutions are covered by a worldwide limited one- or three-year warranty. For more information, visit hp.com.
