

Pay as you grow

HP Financial Services can help customers find new ways to plan for, acquire, consume and adapt the technology systems needed for business transformation.

Pay as you grow is a flexible payment structure that lets you minimize front-end costs when acquiring new equipment and provides you with the budgeting flexibility to ramp-up deployment, installation, and training for your new technology. Pay as you grow is particularly effective at allowing businesses to properly match early ramp-up usage with internal departmental billing by distributing equipment acquisition costs more equitably in the early months.
