# HP Chromebox for Meetings

## Messaging Footnotes

<sup>1</sup> Chromebox for meetings requires an Intel® Core™ i7 processor.

<sup>2</sup> Sold separately or as an optional feature.

<sup>3</sup> Wireless access point and internet service required. Availability of public wireless access points limited.

## Technical specifications disclaimers

<sup>1</sup> Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing system required. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

<sup>2</sup> Integrated Intel HD graphics uses part of the total system memory for video performance. System memory dedicated to video performance is not available for other use by other programs.

<sup>3</sup> For hard drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less.

<sup>4</sup> Requires Internet access and a Google account.

<sup>5</sup> EPEAT® registered where applicable. EPEAT registration varies by country. See [www.epeat.net](http://www.epeat.net) for registration status by country.

<sup>6</sup> External power supplies, power cords, cables and peripherals are not low halogen. Service parts obtained after purchase may not be low halogen.
