Overview

HP Indigo's Prep Team offers customized sessions tailored to your unique needs, press configuration and workflow. Prep Specialists guide you through the early weeks and get you into production while your operators become familiar with your new press. The Prep Team will help you increase productivity, uptime and throughput with your printing team, allowing you to reach peak impressions and production targets quicker.

You will increase productivity by educating operators and management on optimizing best practices for press operation, maintenance and press consumables management.

Ordering Code	Title	Price
H4K34X	HP Indigo 4 Day Color Optimization Visit	\$7,500
H4K35X	HP Indigo 4 Day Production Optimization Visit	\$7,500
H4K36X	HP Indigo 4 Day Production Optimization Visit & 16 Weeks Account Mgmt	\$10,000
H4K37X	HP Indigo 16 Day Production Optimization	\$27,000
H4K52X	4 + 4 Day Production Optimization Visit & 6 Months Account Management	\$16,650

Your visit covers intermediate to advanced instruction by an experienced Prep Specialist. The focus will be on maximizing production efficiency and up time by reviewing, reinforcing and advancing the knowledge and abilities of your HP trained operators for the HP Indigo Press and related HP DFE prepress systems.

The visit should be used within 90 days of the installation of the press and the participants must have successfully completed Indigo Level 1 operator training and/or Digital Front End Tools/ Prepress courses.

Prep Team visits aren't just for new installs. When you need a refresher or when you add more operators, presses or shifts, purchase a Prep Team Production or Color Optimization Visit and have us help you get them into production.

Prerequisites for all Visits are:

- Successful completion of HP Indigo Level 1 Operator training
- Successful completion of HP Indigo Digital Front End/Prepress training
- We recommend that the 4 Day Visits starts 5 weeks after Completion of Install (COI). The visits must take place within 90 days of COI with the exception of the 16 Day Visits which will be scheduled in 2 week increments.

Audience

HP Indigo trained operators and prepress specialists.

Benefits to You

- Increase productivity
- Maximize uptime
- Increase operator proficiency
- Maximize consumables management
- Increase profitability

4 Day Color Optimization Visit Options - H4K34X

The Prep Team 4 Day Color Optimization visit will provide comprehensive color-matching profiling. Complex production environments use multiple print technologies to produce a broad range of printed material using different inks and substrates. The Prep Team Color Specialist works with your trained operators/prepress to navigate them through the complexity. The Prep Team Program Manager will consult with you to determine which topics will be needed for your visit. See ordering instructions at the top

Benefits to choosing this option are:

- Create custom ICC profiles for devices in a digital workflow.
- Meet your customers' color accuracy and consistency demands.
- Provide you with matched color and device consistency.
- Dramatically reduce proofing cost by using the HP Indigo Press as a proofing device.
- Expedite proof turnaround time compared to traditional proofing devices.
- Site assessment to understand your environment and specific color management needs.
- Specification and design of a color management solution, including recommendations for installation of hardware and software, calibration and workflow processes.
- Implementation and testing of ICC profiling and workflow processes on HP Indigo Presses to match color output from another print device.
- Recommendations on how to maintain color quality and consistency.

4 Day Production Optimization Visit Options - H4K35X

The Prep Team 4 Day Production Optimization visit will enable you to deliver a quality product to your clients efficiently and profitably. The Prep Specialist will work closely with the Digital Press and Digital Front End (DFE) operators to review and reinforce all aspects of their classroom training and build upon the knowledge they received during the prerequisite training to get them to the next level of proficiency. The chart below provides you with a wide variety of topics that the HP Indigo Prep Team can provide during your visit. The Prep Team Program Manager will consult with you to determine which topics will be needed for your visit. See ordering instructions at the top.

Prep Team - 4 Day Production Optimization Visit Options		
Adjustments	HP SmartStream Designer	Press User Interface
